- Demographics
- Process
- Stakeholders and regulators
- Hanford-affected communities
- Board stakeholder packet
- Summary

Safety Message

Open communication and fostering an environment free from retribution

- Individuals at all levels of the organization listen to each other and effectively engage in crucial conversations to ensure that meaning, intent and viewpoints are understood; and that differing points of view are acknowledged.

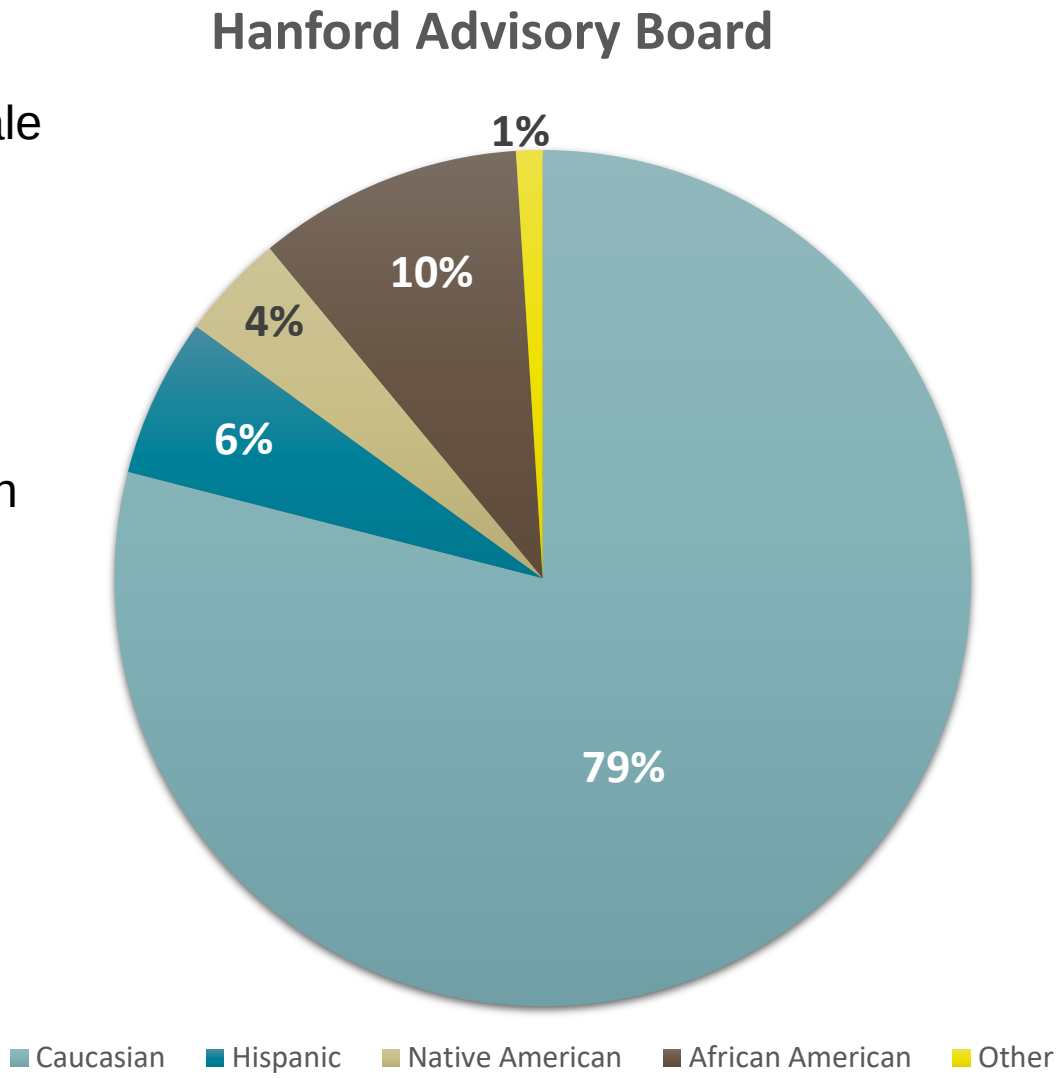
1% Other



Process for adding members

- In order to achieve balance required by the *Federal Advisory Committee Act* and DOE policy, nomination and appointment of members shall be done using procedures designed to ensure a diverse board membership and a balance of representative viewpoints
- Hanford Advisory Board (HAB) members are nominated by individual groups or organizations represented on the HAB; public-at-large members self-nominate
