

PLEASE NOTE

The meeting minutes for the October 4, 1999 Groundwater/Vadose Zone (GW/VZ) Integration Project Open Meeting were lost due to a computer error.

A decision was made to not attempt to recreate the minutes from scratch. It was decided to post the agenda from the meeting on the Integration Project website so that persons unable to attend the original meeting could see the topics discussed. The decision to not recreate the minutes was announced at the October 18, 1999 Integration Project Open Meeting and there were no objections from stakeholders or regulators present.

The Integration Project apologizes for any inconvenience this may have caused. The agenda is attached to this message.
