Richland Operations Office**memorandum**

DATE: DEC 2 2004
REPLY TO
ATTN OF: AMCP:KMT/05-AMCP-0078
SUBJECT: FINAL HANFORD SITE END STATES VISION DOCUMENT

TO: Paul M. Golan, Acting Assistant Secretary
for Environmental Management
EM-1, HQ

The purpose of this memorandum is to respond to your November 12, 2004, memorandum requesting a schedule for submitting the completed Hanford Site End States Vision Document, as well as a proposal for the next steps in the End States process.

The Hanford Site End States Vision Document will be delayed until after the 300 Area Workshop with key stakeholders is completed. The workshop is scheduled for early April 2005 in order to present key results from the 300 Area Uranium Plume Feasibility Study and the City of Richland's 300 Area Reindustrialization Study, both due by early April 2005. In order to capture their points of view into our Vision Document we would like to extend the date to 45 days after the workshop is completed; this is expected to be May 15, 2005.

Based on stakeholder interactions to date, there are several key policy issues that could best be addressed at a national level due to their sensitivity and to assure consistent resolution across the DOE complex. The key policy issues at Hanford are groundwater point of compliance, institutional controls, long term stewardship, and waste management.

If there are any questions, please contact me, or your staff may contact Shirley Olinger, Deputy Manager, Office of River Protection, (509) 372-3062.

Keith A. Klein
Manager
