

"We're Reducing Risks"

Safety is important in the SNF Project

- ◆ **In Fiscal Year 1999, the SNF Project had the lowest Lost Away Work Day case rate and the lowest Occupational Safety and Health Administration (OSHA) case rate of any cleanup project on the Hanford Site**
- ◆ **The FY 1999 Lost Away Work Day case rate in the SNF Project was reduced by 60 percent from the FY 1998 rate**
 - The overall reduction from the FY 1996 rate to the FY 1999 rate was 42 percent
- ◆ **The FY 1999 OSHA Recordable case rate in the SNF Project was reduced by 35 percent from the FY 1998 rate**
 - The overall reduction from the FY 1996 rate to the FY 1999 rate was 56 percent

SNF's Key to Safety Program: SNF Project workers entered the K Basins more than 24,000 times in 1998 without a single skin or clothing contamination incident
