

VSP Install Instructions for Burning to a CD

Instructions:

- Launch Internet Explorer
- Type <http://www.hanford.gov/dqo> and hit **Enter**
- Click on “**ERC VSP Training Course**” found on the left margin
- Click on “**Download/Install**”
- Click on “**Visual Sample Plan, Version 2.0 Installation**”
- Click on “**Down/Install VSP Software from PNNL**”
- Click on the hyperlink to “**Download the Latest Visual Sample Plan version here**”
- Enter, First Name, Last Name, company and e-mail address and click on the “**Submit**” button
- Click on “**Download Version 2.0 Final**”
- At the “File Download” dialog box, select “**Save this program to disk**” and enter the drive/folder location on your hard drive where the file will be save prior to copying to a CD
- The file saved, VSP20.exe (6.1 MB), now needs to be burned to a CD.
When complete, the file copied to the CD will then need to be “Run” on each computer in the training room.
- To run the installer on each computer:
 - Insert the CD in the CD-Rom drive
 - Click on **Start** and then click on **Run**
 - Browse to the CD-Rom drive
 - Click on the file, VSP20.exe, click on **Open** and then click on **OK**
- At the **Visual Sample Plan - InstallShield Wizard** dialog box, click on **Next**
- At the **License Agreement** dialog box, select “**I accept the terms in the license agreement**”. Click on **Next**.
- On the **Destination Folder** dialog box, click on **Next** (should install to the folder, c:\program files\visual sample plan)
- On the **Ready to Install the Program** dialog box, click on **Install**.
- On the **InstallShield Wizard Completed** dialog box, click on **Finish**. Visual

Sample Plan should now be installed on your computer.

- Go to **Start - Programs - Visual Sample Plan** and Select **Visual Sample Plan**.
