

System Plan 7

Schedule

- Waiting on direction from HQ
- Sept 21 – goal for plan for scenarios
- Oct 31 – scenarios complete (CD)
- System Plan 7 planning should allow for meaningful public comment (e.g. advice should be completed at a time that is useful)

Page 1

System Plan 7, cont.

- Review System Plan 6 assumptions? In context of 7, okay
 - IM and/or committee work
- October – develop draft advice? For Dec. HAB meeting?
- Presentation on H2 model useful for the committee?

Page 2

System Plan 7, cont.

- Consider milestone for system planning – policy level
- Is the system plan process useful?
 - Will it work?
 - Will it result in effective tank waste treatment?
- Ecology recommendation for TWC –
 - Focus on policy level given current environment (and complexity of issues)
 - ID what you need to know
 - Funding component

Page 3

System Plan 7, cont.

- DOE – policy level feedback, useful from TWC
 - What do we use it for and how?
 - Integration
 - Feedback on assumptions (not as much)
- Consider – how is this getting us to successful tank waste treatment?
- More technical rigor; identify all waste streams

- Goal = advice for December

Page 4

System Plan 7, cont.

Path Forward

- IMs = Dick*, Al, Dirk, Liz, Meme, Jeff
- Prep for Sept. TWC meeting:
 - IMs → agencies to frame up presentations
- Sept. TWC meeting:
 - Discussion of assumptions – system as a whole, WTP, retrieval, pretreatment
 - DOE presentation overview of H2 model
 - DOE/Ecology presentation on system planning and the TPA

Page 5

Leaking Tanks Advice

- Background rewrite – Dirk and Shelley
- Proposing for TWC consensus to take to Sept. Board meeting

Page 6

Follow Up/Bin

- Provide Ecology's System Plan 6 assumptions list to TWC
- 2015 ORP budget → BCC
- Topic proposal for committee consideration – high manager turnover at agencies and contractors (Jeff Luke)
- Topic proposal (Harold) – Ecology review of regulatory framework

Page 7

September

- WTP Tour for TWC – half day (morning), on/off bus
- Discussion of System Plan 6 assumptions (including Ecology's assumption review)
- DOE presentation on H2/Systems model
- DOE/Ecology presentation on System Plan and TPA

- PIC agenda, joint with TWC: definition of waste

Page 8

October

- DOE briefing on Energy Secretary's plan [for System Plan]
- System Plan advice development
- Briefing on treating and packaging lower-activity waste ("TRU")
- Status update on leaking tanks

Page 9

November

- System Plan 7 advice refinement
