

### Groundwater Update

- Final report on 300-FF-5 sequestration test in May 2016
  - DOE to provide update to RAP

### Update on 618-10 Burial Ground Vertical Pipe Units

- Question on cost figures, follow-up from DOE-RL
- Distribute incident report to committee, facilitation team to coordinate with DOE
- Potential update in August/September 2016
  - Status of augering/excavation and other updates

### Environmental Restoration and Disposal Facility (ERDF) Update

- Brief update on cap design question
  - EPA and DOE to coordinate
- Public interest in ERDF, provides context for overall Hanford cleanup activities
- Update in March/April timeframe

### Solid Waste Operations Complex (SWOC) Dangerous Waste Permit Modifications

- 60-day DOE comment period on request for modifications
  - Ends April 8, 2016
- Ecology will issue draft permit modification
  - 45 day comment period
- Future Ecology presentation to RAP, responding to comments and advice prior to issuing 45-day comment period
  - Addressing comments received in 2012, public meeting, etc.

### March 2016

- Environmental restoration and disposal facility (ERDF) update
  - Cap design question
  - Public info (potential advice)
- BCC/RAP budget
  - March 16, 2016
- Leadership retreat / work plan input
- Committee leadership

April 2016

- Solid Waste Operations Complex update
- PW 1/3/6 update
- 324 Building
- Plutonium Finishing Plant update
  - Demo progress

May 2016

- Groundwater 300-FF-5 final report results
  - U sequestration
- Delay in progress, timely advice

June/July/August 2016

- Waste Encapsulation Storage Facility update
  - June or August
- Tour?
- 100 D/H proposed plan
  - June or August
