The HAB Vision of Hanford's Central Plateau Cleanup Priorities

November 11, 2013

The Goal

This Vision is being developed to encourage wide-spread alignment on cleanup principles for moving forward in remediation planning for Hanford's Central Plateau.

The Cleanup Issues

Groundwater

Tank Farm Closure

Leaked Tank Waste and other Deep Vadose Zone (DVZ) Contamination

Liquid Waste Disposal Sites

Ponds

Burial Grounds

Transuranic Materials

Cesium-Strontium capsules

Canyon Facilities

Caps/Barriers

Institutional Controls (ICs)

Natural Resource Damage Assessment and Restoration Considerations

Small and Contiguous Final Footprint
