

SST-Unit Permit Outline

Unit Description, List of Addendum,
Definitions, Acronyms

Conditions:

- A. Compliance requirements
- B. Facility Description and Process Information
 - 1. General Requirements
 - 2. SST System Process Information
 - 3. WMA Process Information
 - 4. 200-IS-1 OU Component Process Information
- C. SST System Groundwater Monitoring
 - 1. Compliance Monitoring Requirements
 - 2. Corrective Action Monitoring
 - 3. Groundwater Monitoring and Performance Report
 - 4. Well Installation and Decommissioning
 - 5. Contingent Post-Closure Groundwater Monitoring

Conditions continued:

D. Corrective Action

E. Pre-Closure Requirements

1. Safety Controls and Hazards Prevention
2. Tank Leak/Intrusion Detection and Responses to Leaks/Spills
3. Contingency Plan
4. Training Plan
5. Security
6. Inspections

Conditions continued:

F. Tank Waste Retrieval Requirements

1. General Requirements
2. TWRWP Requirements
3. Tank Leak Detection Monitoring
4. Data Quality Objectives and Sampling and Analysis Plan
5. Temporary Waste Transfer Line Management

Conditions continued:

G. SST System Closure

1. General Requirements
2. Closure Performance Standards
3. SST System Closure Schedule
4. Closure Plan Submission
5. Closure Requirement for SST Components within 200-
IS-1 OU
6. Risk Assessment

H. Post-Closure Care

1. General Requirements
2. Certification of Post-Closure Performance
