

Narrative Summary – August 2013

August 2013 was warmer than normal, averaging 77.7°F, 1.9° above normal (75.8°F). The hottest August (1967) averaged 81.5°F, while the coolest (1964) averaged 69.8°F. There were 25 days in August with maximum temperatures $\geq 90^\circ\text{F}$ compared to an August normal of 18. There have been 65 days this year with maximum temperatures $\geq 90^\circ\text{F}$ compared to a normal (through August) of 49 days. There were 2 days in August with maximum temperatures $\geq 100^\circ\text{F}$ which is above normal for August(5). There have been 13 days this year with maximum temperatures $\geq 100^\circ\text{F}$ compared to a normal (through August) of 13. The following daily temperatures records were established during August 2013:

<u>Date</u>	<u>Category</u>	<u>New Record</u>	<u>Old Record</u>	<u>Year</u>
2	Low Maximum	74	75	1956

Precipitation for August 2013 totaled a 0.24 inches, 133% of normal (0.18 inch). The wettest August (1977) received 1.36 inches, while the driest (1955 and 1988) received no precipitation. Total precipitation for 2013 (through August) is 4.15 inches, 99% of normal (4.19 inches).

The average wind speed for August 2013 was 7.4 miles per hour (mph), which was below normal (8.0 mph). The windiest August (1996) averaged 9.5 mph, while the August with the lightest winds (1956) averaged 6.0 mph. The peak gust for August 2013 was 51 mph on August 9. The record wind gust for August was 66 mph in 1961.

The summer season of 2013 (June, July and August) was warmer than normal, averaging 76.1°F, 1.9° above normal (74.2°F). The hottest summer (1958) averaged 78.2°F, while the coolest summer (1980) averaged 70.2°F. The summer's highest maximum temperature was 109°F on July 2. The highest maximum temperature ever recorded at the Hanford Meteorology Station (113°F was recorded on August 4, 1961, July 13, 2002, and July 23, 2006). Summer season precipitation totaled 1.61 inches, 175% of normal (0.92 inch). The wettest summer (1950) received 2.99 inches, while the driest (1973) received only 0.03 inch.
