The CO will designate in writing the name and correspondence address of the COR who is the only individual (outside of the CO) that may give technical direction in accordance with the Section G clause entitled DEAR 952.242-70, “Technical Direction.” The Contractor shall use the COR as the primary point of contact on technical correspondence (see the Correspondence Procedures clause, above, for definition), subject to the restrictions of Section G, DEAR 952.242-70, “Technical Direction.”

G.5 DEAR 952.242-70 TECHNICAL DIRECTION (DEC 2000)

(a) Performance of the work under this contract shall be subject to the technical direction of the DOE COR. The term “technical direction” is defined to include, without limitation:

(1) Providing direction to the Contractor that redirects contract effort, shifts work emphasis between work areas or tasks, requires pursuit of certain lines of inquiry, fills in details, or otherwise serves to accomplish the contractual SOW.

(2) Providing written information to the contractor that assists in interpreting drawings, specifications, or technical portions of the work description.

(3) Reviewing and, where required by the contract, approving technical reports, drawings, specifications, and technical information to be delivered by the contractor to the Government.

Technical direction must be within the scope of work stated in the contract. The COR does not have the authority to, and may not, issue any technical direction that:

1. Constitutes an assignment of additional work outside the SOW;
2. Constitutes a change as defined in the contract clause entitled "Changes";
3. In any manner causes an increase or decrease in the total estimated contract cost, the fee (if any), or the time required for contract performance;
4. Changes any of the expressed terms, conditions, or specifications of the contract; or
5. Interferes with the Contractor's right to perform the terms and conditions of the contract.

All technical direction shall be issued in writing by the COR.

The Contractor must proceed promptly with the performance of technical direction duly issued by the COR in the manner prescribed by this clause and within its authority under the provisions of this clause. If, in the opinion of the Contractor, any instruction or direction by the COR falls within one of the categories defined in (c)(1) through (c)(5) of this clause, the Contractor must not proceed and must notify the CO in writing within five (5) working days after receipt of any such instruction or direction and must request the CO to modify the contract accordingly. Upon receiving the notification from the Contractor, the CO must:

1. Advise the Contractor in writing within thirty (30) days after receipt of the Contractor's letter that the technical direction is within the scope of the contract effort and does not constitute a change under the Changes clause of the contract;
2. Advise the Contractor in writing within a reasonable time that the Government will issue a written change order; or
3. Advise the Contractor in writing within a reasonable time not to proceed with the instruction or direction of the COR.

A failure of the Contractor and CO either to agree that the technical direction is within the scope of the contract or to agree upon the
