Hi Dorothy

Sorry - I've just sent you an email asking if you can give me any help with obtaining a HEDL document,

Crippen, M.: Selection of process parameters for sodium removal via the water vapour nitrogen process. HEDL TME UC-79 (1977).

I should have included the amended reference given to me by PNNL library:

The report number of the item you asked about appear to be: HEDL-TME-77-62 for this title:

Selection of process parameters for sodium removal via the water vapor nitrogen process. [LMFBR], by Crippen, M. published on 1977 Nov 01

Many thanks

Anne
