 3. Letter, A. E. Hopko, RL, to F. Armijo, MSA, "Contract No. DE-AC06-09RL14728 – Long-Term Stewardship Contract Direction and Deliverables," 10-ISI-0128, 1000941A, dated July 21, 2010.

The subject letter from RL stated that RL accepted the MSA contract deliverable, Reference 2; however, several minor corrections and additional details were noted that needed to be incorporated. The corrections and additional details have been incorporated into the template. The revised final version of the template is attached for your information and will be used to guide the transition of land from the cleanup projects to the long-term stewardship program (Attachment 1). Unless additional changes or comments have been identified, no further action is needed from RL.

MSA will meet with representatives from the cleanup projects to incorporate this template into the Long-Term Stewardship Service Delivery Document, SDD J3-46. For reference purposes the revised template is available at:
