ATTACHMENT 1: DOE DIRECTIVES APPLICABLE TO THE 222-S LAB

The DOE Directives found in the following listing are the “List of Applicable Directives” and “List B” as those terms are used in paragraph (b) of Section I Clause, Laws, Regulations, and DOE Directives. The Contractor shall follow the established exemption process to obtain relief from requirements of these regulations where applicable.

It is anticipated during the performance of this contract, the conditions for applicability of certain DOE Directive may no longer exist. In any such situation where the Contractor seeks relief from the requirements of such DOE Directives, the Contractor may notify the Contracting Officer in writing explaining the reasons for its belief the DOE Directives no longer apply to contract performance. The Contracting Officer may determine the conditions for applicability of a DOE Directive still exist, and may direct the Contractor to continue compliance with the DOE Directive. Additional, even without such direction by the Contracting Officer, if the conditions for applicability of a DOE Directive once again arise, the DOE Directive will immediately become applicable once again.

List B: Applicable DOE Directives

The following is an all-inclusive list of applicable DOE directives.

*Those directives marked “Supplement,” are DOEL-RL CRDs that are in addition to the DOE-HQ CRDs. The Section B clarification and Section C supplemental requirements apply in addition to the HQ CRDs. Any specific clarifications or requirements do not apply unless otherwise noted.

ATTACHMENT 2: 222-S LABORATORY DOCUMENTED SAFETY ANALYSIS

In accordance with Section C.2.3.4 requirements, the following documents are incorporated:

DSA HNF-12125.pdf
TSR HNF-14733.pdf
ATTACHMENT 3: APPLICATIONS, PERMITS, AND NOTICES OF CONSTRUCTION

The following is a list of applications, permits, and Notices of Construction (NOCs) the lab currently complies with:

**Liquid Effluents:**

- SWDP ST4511, Site-wide Hydrotest, Maintenance, and Construction Discharges, Site-wide Cooling Water and Condensate Discharges and Site-wide Industrial Stormwater Discharges to Engineered Land Disposal Structures
- HNF-SD-W049H-ICD-001, 200 Area Treated Effluent Disposal Facility Interface Control Document

**Air Emissions:**

- Hanford Site Air Operating Permit, 00-05-006
- NOC, State of Washington Department of Health, AIR 08-904, September 8, 2008, *License to Operate the 222-S Laboratory*

**Waste Treatment, Storage, Disposal:**

The 222-S Laboratory Complex is an interim status Treatment, Storage, and Disposal Facility and does not have a RCRA Permit. An application (DOE/RL-91-27) for a RCRA, Part B, Final Status Treatment, Storage, and Disposal Facility Permit has been submitted to the State of Washington Department of Ecology. Chapter 1 of the permit application contains the Part A, Form 3, Revision 9, Dangerous Waste Permit Application, which must be complied with.

**Waste Analysis Plan:**

A draft Waste Analysis Plan for the Low-Level Burial Grounds is currently being discussed with the Washington State Department of Ecology
ATTACHMENT 4: WASHINGTON DEPARTMENT OF LABOR WAGE DETERMINATION

CBA WD

REGISTER OF WAGE DETERMINATION UNDER
THE SERVICE CONTRACT ACT
By direction of the Secretary
of Labor

U.S. DEPARTMENT OF LABOR
EMPLOYMENT STANDARDS ADMINISTRATION
WAGE AND HOUR DIVISION
WASHINGTON D.C. 20210

Wage Determination No.: CBA-2012-5191
Revision No.: 3
Date Of Last Revision: 11/11/2013

Diane Koplewski
Director
Division of Wage Determinations

State: Washington
Area: Benton

Employed on U.S. Department of Energy, Office of River Protection contract for the scope of this contract, awarded to Advanced Technologies and Laboratories, is to perform the Analytical Services production functions of receiving, handling, analyzing, storing samples, performing special tests and reporting the results of these analyses and tests to the contractors of Department of Energy Offices at the Hanford Nuclear Site near Richland, Washington. These functions will be performed through a contract with the DOE Office of River Protection at the 222-S Laboratory located in 206 West.

In accordance with Section 2(a) and 4(c) of the Service Contract Act, as amended, employees employed by the contractor(s) in performing services covered by the Collective Bargaining Agreement(s) are to be paid wage rates and fringe benefits set forth in the current collective bargaining agreement and modified extension agreement(s).

11/11/2013
**Fringe Benefits Required Follow the Occupational Listing**

11/11/2013

J-13
ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: $3.81 per hour or $152.40 per week or $660.40 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, 4 weeks after 10 years, and 5 weeks after 20 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dyeing, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder, and photoflash powder. All dry-house activities involving propellants or explosives.

11/11/2013
Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to, ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minor damage to immediate or adjacent work area or equipment being used. All operations involving unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost) reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such classified classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted classification of employees. The conforming classification, wage rate, and/or fringe benefits shall
be retroactive to the commencement date of the contract. (See Section 4.6(C)(vi))
When multiple wage determinations are included in a contract, a separate SF 1444
should be prepared for each wage determination to which a class(es) is to be
conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed
occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order
proposed classification title(s), a Federal grade equivalency (FGE) for each
proposed classification(s), job description(s), and rationale for proposed wage
rate(s), including information regarding the agreement or disagreement of the
authorized representative of the employees involved, or where there is no authorized
representative, the employees themselves. This report should be submitted to the
contracting officer no later than 30 days after such unlisted class(es) of employees
performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report
of the action, together with the agency's recommendations and pertinent
information including the position of the contractor and the employees, to the Wage
and Hour Division, Employment Standards Administration, U.S. Department of Labor,
for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or
disapproves the action via transmittal to the agency contracting officer, or
notifies the contracting officer that additional time will be required to process
the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of
Occupations" (the Directory) should be used to compare job definitions to insure
that duties requested are not performed by a classification already listed in the
wage determination. Remember, it is not the job title, but the required tasks that
determine whether a class is included in an established wage determination.
Conformances may not be used to artificially split, combine, or subdivide
classifications listed in the wage determination.
ATTACHMENT 5: HANFORD SITE SERVICES AND INTERFACE REQUIREMENTS MATRIX

Services listed in the *Hanford Site Services and Interface Requirements Matrix (Matrix)* shall be performed in accordance with the Section H Clause entitled, *Hanford Site Services and Interface Requirements Matrix*.

All services are provided during the Hanford alternate work schedule (AWS) defined as 7:00 a.m. to 4:30 p.m. Monday through Thursday and 7:00 a.m. to 3:30 p.m. on standard Site Fridays unless otherwise noted. Hanford Site contractors can request work outside of this schedule by providing a statement of work and requesting that scope as a usage-based service.

**Legend for Matrix** – The Legend for the primary Matrix users/providers is as follows:

MSC Mission Support Contract(or)
PRC Plateau Remediation Contract(or)
TOC Tank Operations Contract(or)
WTP Waste Treatment and Immobilization Plant (Contractor)
RCCC River Corridor Closure Contract(or)
Other Site Users Examples include: Occupational Health Services Contractor (OHSC), Laboratory Analytical Services and Testing Contractor (LAS&T), Energy Savings Performance Contractor (ESPC), Pacific Northwest National Laboratory (PNNL) [activities located on the Hanford Site], Laundry Services Contractor, DOE, etc.

**Types of Interfaces** –

1. **Information**: knowledge (data, facts, etc) gathered or supplied
2. **Physical**: systems in tangible contact (i.e., ‘pipe-to-pipe’), or a physical exchange of product or materials
3. **Service**: provision of work for another Contractor

Scope/Cost Allocation

Service Description

ISAP is the strategic plan for right-sizing the infrastructure to support the future Hanford Site mission and the Annual Forecast of Services and Infrastructure is a projection of needed utilities, services, and infrastructure from other Hanford Site contractors.

- MSC shall develop, maintain and update an ISAP and the Annual Forecast of Services and Infrastructure, which includes the costs for services. Proposed changes in service providers shall include a justification, and a plan forward.
- MSC shall solicit input from Hanford Site contractors/users for the ISAP and the Annual Forecast of Services and Infrastructure, including projection of need for services and proposed performance metrics/controlling agreements for the service provider.
- DOE will evaluate contractor/user input prior to approval. The plan will be approved by DOE.

Usage-Based Services

N/A

Direct-Funded Services

MSC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.

**Scope/Cost Allocation**

**Service Description**

Protective Forces provides security for facilities possessing critical Safeguards and Security interests (e.g., special nuclear material). Coverage is provided 24/7 via the Hanford Patrol.
- MSC shall provide Protective Force operations.
- Hanford Patrol shall provide random and special searches as required.
- Hanford Patrol shall provide Protective Force services for WTP facilities when turned over to TOC.

**Usage-Based Services**

N/A

**Direct-Funded Services**

Funded through MSC; provided at no cost to Hanford Site contractors. Hanford Site contractors shall provide facility, operational, and system configuration changes that may affect Protective Force operations.

### Scope/Cost Allocation

#### Service Description

Physical Security under this activity is for accountable quantities of nuclear and classified materials, including performance testing, intrusion detection, entry/access control, explosive detection, locksmith services, and engineering and maintenance of the physical security and access control systems.

- MSC shall provide Security Representatives for facilities or groups of facilities where there are important safeguards and security (SAS) assets.
- MSC shall develop, or assist in the development of facility asset protection requirements and conduct annual reviews of Asset Protection Agreements.
- MSC shall design security system upgrades for existing facilities with changing requirements and design security systems for new facilities.
- MSC shall provide locksmith support for installation, replacement, and maintenance of locks, keys, and access control systems for the protections of Government property and nuclear materials, including special nuclear materials, classified matter, new facilities and WTP turnover facilities to TOC, etc.
- Hanford Site contractors shall provide the MSC information about SAS arrangements and/or changes prior to new operations commencing, or changing operations or configurations that might alter the performance of existing SAS systems; support the MSC in the development of or update of facility Asset Protection Agreements, and requesting locksmith services.

#### Usage-Based Services

N/A

#### Direct-Funded Services

Funded through the MSC; provided at no cost to Hanford Site contractors with the exception of physical security upgrades within the facility - these may be shared costs between the MSC and the Hanford Site contractor that has responsibility for the facility.

### Scope/Cost Allocation

| MSC bears the cost burden of program administration; Hanford Site contractors bear costs of physical security upgrades. If used by PNNL off Hanford Site, they pay full-cost. |

### Service Description

Physical security under this activity is for Government property other than nuclear material, special nuclear material, and classified. Physical Security such as fences, locks, etc. through *Asset Protection Agreements.*

- MSC shall develop, or assist in the development of facility asset protection requirements and conduct annual reviews of *Asset Protection Agreements.*
- Hanford Site contractors shall support the MSC in the development of or update of facility *Asset Protection Agreements* and implement those agreements.
- MSC shall provide Technical and Engineering Security services as required for the design and/or turnover of new facilities.

### Usage-Based Services

N/A

**Direct-Funded Services**

MSC bears the cost burden of program administration; Hanford Site contractors bear costs of physical security upgrades. If used by PNNL off Hanford Site, they pay full-cost.

### Scope/Cost Allocation

#### Service Description

The OPSEC Program helps ensure that sensitive information is protected from compromise and secured from unauthorized disclosure, and provides management with necessary information required for sound risk management decisions concerning the protection of sensitive information.

- MSC shall implement a Hanford Site-wide program; assure conformity of implementation with OPSEC standards and requirements; conduct assessment(s) of all Hanford Site facilities having Category I special nuclear material (SNM) (or credible roll-up to Category I SNM); conduct reviews of all Hanford Site facilities that have the potential to process or store classified or sensitive information; and conduct the *Annual Site OPSEC Threat Assessment* and prepare the annual *OPSEC Plan*.
- Hanford Site contractors shall implement their internal OPSEC responsibilities, participate and support Hanford Site-wide OPSEC Working and Awareness groups; provide support to the MSC OPSEC assessments; and support the *Annual Site OPSEC Threat Assessment* and preparation of the annual *OPSEC Plan*.

**Scope/Cost Allocation**

**Service Description**

The CMPC Program establishes control and accountability requirements for classified matter, marking of classified matter, reproduction, receipt and transmission, and destruction; and, physical protection requirements for classified matter in storage.

- MSC shall provide a centralized CMPC, Classification, Declassification and Unclassified Controlled Nuclear Information (UCNI) Program that includes operation and management of the Classified Document Control Center and management of classified information in the records holding area.
- MSC shall provide trained and authorized personnel to conduct inquiries for incidents of security concern, maintain the reporting database, and assist the contractor in report writing as required.
- Hanford Site contractors shall be responsible for maintaining an updated list of security containers, locations and custodians; support investigation of any incidents of potential or actual compromise of classified; and nominate a sufficient number of Derivative Classifiers and Reviewing Officials who shall be trained and approved by the MSC.

**Usage-Based Services**

**Direct-Funded Services**

MSC bears the burden of Program administration; Hanford Site contractors/users bear internal implementation costs.
Scope/Cost Allocation

Service Description

The OUO Program establishes controls to protect sensitive unclassified information as OUO.  
- MSC shall manage, integrate, and oversee implementation of a common Hanford Site-wide OUO program to ensure conformity of implementation by performing Hanford Site contractors and coordination of OUO education and awareness.  
- Hanford Site contractors shall manage and implement an OUO information program consistent with the common Hanford Site-wide OUO information program.

Usage-Based Services

N/A

Direct-Funded Services

MSC bears the cost of Program administration; Hanford Site contractors/users bear internal implementation costs.
**Scope/Cost Allocation**

**Service Description**

A DOE security badge is utilized for all DOE and contractor personnel to gain access to DOE-owned or -leased facilities or areas where DOE-sponsored work is ongoing.

- MSC shall provide badging service for the Hanford Site, which includes manufacture, issuance, destruction, control, and accountability for DOE Standard, Hanford Specific, Temporary, and Personal Identify Verification badges.
- MSC shall coordinate and initiate “STOP ACCESS” procedures, and control and issue private vehicle passes for Property Protection Areas.
- Hanford Site contractors shall obtain badging service from MSC; participate in “STOP ACCESS” program; and obtain vehicle passes from MSC.

**Usage-Based Services**

N/A

**Direct-Funded Services**

Funded through MSC; provided at no cost to Hanford Site contractors. Hanford Site contractors/users bear internal implementation costs.

**Scope/Cost Allocation**

**Service Description**

The Access Authorizations (Security Clearances) Program involves processing, granting, and allowing individuals to retain an access authorization when their official duties require access to classified information or matter, or special nuclear material (SNM).

- MSC shall process all security clearances in support of Hanford Site contractors. These activities include requesting, obtaining, maintaining, downgrading and terminating security clearances, including “Special Access” privileges (e.g., SIGMA). The clearance processing program shall include reviews of each requested clearance action to ensure adequate justification exists and that reporting requirements are met.
- Hanford Site contractors shall request and obtain personnel security clearances, including “Special Access” from the MSC.

Scope/Cost Allocation

Service Description

The MC&A Program provides control and accountability of nuclear materials within DOE.

- MSC shall manage and conduct a centralized MC&A program for all accountable quantities of nuclear material on the Hanford Site, and approve all implementing procedures of Hanford Site contractors.
- Hanford Site contractors shall support MSC in preparation and maintenance of a Hanford Site-wide MC&A Plan, administration of treaty related activities, performance of occurrence investigation and reporting, and scheduling of periodic inventories.
- Hanford Site contractors shall implement MC&A requirements per the Hanford Site-wide MC&A Plan. Hanford Site contractors are required to implement facility specific requirements.

### Scope/Cost Allocation

**Service Description**

Site Training Services provides training facility, curriculum, and training delivery services to Federal, contractor, and subcontractor employees in support of the Hanford and PNNL missions consistent with the DOE, local, state, and Federal workforce training requirements.

- MSC shall provide Hanford Site workers (and PNNL, as requested) mandatory standardized training as listed below and optional training as requested to support maintaining a qualified workforce, develop the Annual Training Needs Forecast and Plan, and operate the HAMMER facility.
- MSC shall maintain the employee training records for training provided by MSC.
- MSC shall perform mask fit services for Hanford Site contractors.
- Hanford Site contractors shall provide training priorities, training needs, and input regarding standardized training programs.

**Mandatory Standardized Training**

2. Lockout/tagout of hazardous energy
3. Permit required confined space entry
4. Chronic Beryllium Disease Prevention Program (CBDPP)
5. Respiratory protection program
6. Hoisting and rigging
7. Fall protection
8. Electrical safety
9. Radiation Safety (e.g., Radiological Worker I and II and Radiological Control Technician training).

**Scope/Cost Allocation**

**Service Description**

Fire and Emergency Response Services provide fire prevention, fire suppression, fire investigations; emergency rescue; emergency medical service and patient transport; incident command; and hazardous material and chemical/biological/radiological emergency response for the Hanford Site and those non-Hanford Site areas designated by DOE.

- MSC shall provide 24/7 fire-related protection of human life, property, and facilities; and operates basic and advanced life support emergency medical services.
- MSC shall act as the Site Incident Command Agency for all fires and hazardous/radiological materials emergencies on the Hanford Site.
- Hanford Site contractors shall support facility access to the MSC fire services personnel, and notify the Fire Department of work activities, events, incidents, etc., that may require Fire Services involvement and/or response (e.g., medical assistance, hazardous or radiological emergency help, etc.).
- The MSC will provide support for HFD participation in drills and exercises.

**Usage-Based Services**

**Scope/Cost Allocation**

**Service Description**

Emergency Operations consists of the Hanford Site-wide Emergency Preparedness (EP) Program, which includes operation of the Emergency Operations Center (EOC), Joint Information Center (JIC), requirements for hazards surveys and hazards assessments, training of EOC staff, Hanford Site-wide exercises, and facility-specific plans and procedures for EP development, training, drills and assessments.

MSC shall:
- Coordinate, integrate, and maintain a centralized Hanford Site EP Program.
- Provide instruction in accordance with DOE/RL-94-02, *Hanford Emergency Management Plan* to all Hanford Site contractors and their subcontractors.
- Conduct or support emergency management surveillances and assessments and work with the Hanford Site contractors for corrective action implementation.
- Establish procedures and provide direction and coordination for the Hanford Site Occurrence Reporting Program.

**Usage-Based Services**

N/A

**Direct-Funded Services**

MSC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs. MSC shall provide support for the Unified Dose Assessment Center (UDAC). Hanford Site contractors shall develop, maintain, and execute an Emergency Management Program as described in DOE/RL-94-02, *Hanford Emergency Management Plan* for facilities and waste sites under their control.

**Scope/Cost Allocation**

**Service Description**

Site Safety Standards are to be used by Hanford Site contractors to ensure common processes for worker safety.

- MSC shall obtain affected Hanford Site contractor approval and establish common safety processes on the Hanford Site as listed below.
- MSC shall maintain a site-wide web-based system with input from other Hanford contractors for sharing operating experiences and lessons learned with a focus on preventing recurrence of safety or reliability events, and to share good work practices in accordance with DOE O 210.2.
- MSC, PRC, and TOC shall work collaboratively and build coalitions with Hanford Site contractors and workers to continue to build a strong and enduring safety culture. Based on input from Hanford Site contractors and workers, the MSC with the PRC and TOC shall identify DOE opportunities to enhance and measure the Hanford safety culture.
- MSC shall manage and administer Hanford Site safety activities/initiatives, such as, Annual Safety Exposition, Hanford Worker Electrical Safety Board, etc., as approved by DOE.
- Affected Hanford Site contractors shall approve common safety standards and develop internal implementing procedures, and participate in Hanford Site safety activities/initiatives, where appropriate, as administered by MSC.

2. Permit required confined space entry.
3. Chronic Beryllium Disease Prevention Program (CBDPP).
4. Respiratory protection program.
5. Hoisting and rigging
6. Fall protection.
7. Electrical safety.
8. Industrial hygiene exposure records including the generation, common database, and storage.
9. Employee job task analysis (EJTA) as being implemented on the Hanford site at the present time.
10. Excavation permits with emphasis on the existing Hanford site system for obtaining excavation permits.
11. Hazardous Chemical Reporting: Community Right-to-Know with the MSC responsible for obtaining data from other Hanford site contractors, compiling and submitting the required data.

**Usage-Based Services**

### Scope/Cost Allocation

#### Service Description

Environmental Regulatory Management ensures a Site-wide environmental program which is compliant with applicable laws, regulations, DOE directives and the Section H Clause entitled, *Environmental Responsibility*. MSC shall establish and provide site-wide management, administration, integration, permitting and compliance in coordination with other Hanford Site contractors. The MSC shall obtain concurrence from affected Hanford Site contractors for Site-wide environmental documents. MSC performs all near-field monitoring activities for the Hanford Site, including near-field monitoring required by a facility specific permit.

Hanford Site contractors shall:

- Provide input for the Site-wide Environmental Management System (EMS) Program Management Plan.
- Integrate their environmental permitting and regulatory compliance activities with the Hanford site-wide permitting and compliance framework maintained by the MSC.
- Provide appropriate and timely input to the MSC and other designated Hanford Site contractors for regulatory required Site-wide environmental reports and metrics for their facilities and activities.
- Support MSC in their Site-wide environmental regulatory management roles.
- Provide legally and regulatory required air and liquid effluent and near facility environmental monitoring; collect, compile, and/or integrate air and liquid effluent monitoring data from operations and activities under their control.
- Provide appropriate environmental data for its facility and operable units to support Hanford Site assessments and preparation of the annual Hanford Site Environmental Report. Obtain unit specific permit modifications in coordination with the MSC.
- Inform MSC if any near-field monitor(s) are required as part of contractor’s facility monitoring.

MSC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.
Scope/Cost Allocation

Service Description
Seismic Monitoring Services are required to operate the Hanford Site seismic network and provide report activities as needed. This information is utilized for operational facilities, to support new facility design and for emergency operations activities.

- MSC shall maintain seismic sensors and systems, monitor seismic activity and report seismic activities on the Hanford Site.
- MSC shall provide seismic information to Hanford Site contractors upon request.
- Hanford Site contractors shall request and provide requirements for services when necessary.

Usage-Based Services
N/A

Direct-Funded Service
- Service scope as defined above.

### Scope/Cost Allocation

### Service Description

HEO provides program management, coordination and integration of Public Safety and Resource Protection (PSRP) functions. HEO also provides technical and administrative support to DOE associated with the PSRP program including Natural Resource Trustee activities.

- MSC shall provide annual updates of the *Hanford Site National Environmental Policy Act (NEPA) Characterization Report*.
- Hanford Site contractors shall provide to MSC appropriate environmental data for its facility and operable units to support Hanford Site assessments and preparation of the *Hanford Site NEPA Characterization Report*.

**(1)**

Scope/Cost Allocation

Service Description

(2) The Hanford Meteorological Monitoring System includes 30 monitoring stations on the Hanford Site and provides accurate and timely weather information that enable safe conduct of activities and emergency response.

- MSC shall provide all standard, weather-related information for Hanford Site contractors, providing detailed around-the-clock, easily retrieved and understood, real time meteorological data. This includes forecasts, heat indices, historical information, etc.
- MSC shall maintain and operate the Hanford Meteorological Monitoring system. MSC may be requested to provide special-use information by Site contractors.

(3) Usage-Based Services

Special-use information requested by Site contractors

Direct-Funded Services

MSC bears the cost burden of program administration, Hanford Site contractors shall request and provide requirements for service.

**Scope/Cost Allocation**

**Service Description**

Environmental Surveillance consists of far-field multimedia environmental monitoring to measure the concentration of radionuclides and chemicals in environmental media and assess the integrated effects of these materials on the environment and the public.

- MSC shall assess impacts and risks of contaminants on human health in order to prepare the annual Hanford Site Environmental Report and the Hanford Site Environmental Surveillance Master Sampling Schedule; and align the surface environmental surveillance with the needs of the environmental clean-up, restoration, and assessment activities at the Hanford Site.
- MSC shall assess impacts and risks of Hanford contaminants on human health and the environment in support of Hanford cleanup activities as requested. Data and analysis shall be made available to the Hanford risk assessment activities.
- Hanford Site contractors shall provide appropriate input to support MSC preparation of the annual Hanford Site Environmental Report and Hanford Site Environmental Surveillance Master Sampling Schedule.

**Usage-Based Services**

Hanford Site contractors bear request for services costs.

**Direct-Funded Services**

MSC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.

### Service Description

Ecological Monitoring and Compliance is to achieve compliance with ecological resource-related legal and regulatory requirements; Biota is monitored to access the abundance, vigor, or condition, and distribution on the Hanford Site.

MSC shall:
- Assess the impacts to biological resources from Hanford Site operations and legacy contaminants to the environment and monitor the abundance, vigor, and distribution of plant and animal populations on the Hanford Site. This includes baseline surveys of protected biological resources, species, and habitats within key areas of the Hanford Site where the majority of routine operations and clean-up are conducted.
- Conduct ecological compliance reviews for Hanford Site contractors.
- Ecological reviews that are required to be conducted outside the Hanford alternate work schedule will not charge overtime to OHC projects.

Hanford Site contractors shall:
- Allow access to the Ecological Monitoring and Compliance activity for the purpose of collecting information and samples.
- Provide ecological information to the MSC from their sampling activities such as CERCLA/RCRA risk assessments.

### Usage-Based Services

Ecological reviews are a usage-based service.

### Direct-Funded Services

MSC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.

**Scope/Cost Allocation**

**Service Description**

The Cultural and Historic Resource Program administers the program for protecting Hanford Site cultural and historic resources, and documents and addresses any real or potential Site-wide issues and their impacts; and assures compliance with associated laws, DOE directives, and legally-binding agreements.

- MSC shall monitor and support the resource protection activities of Hanford Site contractors; coordinate surveys performed to document the occurrence of protected resources; evaluate and document impacts to protected resources; perform NHPA Section 106 Reviews for Hanford Site contractors; maintain, establish procedures for and manage Hanford Site cultural and historic resource site files (hard copy and electronic) and associated compliance project files for all such work that occurs at the Hanford Site; and curate files and artifacts in accordance with 36 CFR 79.

- Hanford Site contractors shall provide information to the MSC necessary to perform NHPA Section 106 Reviews for their scope of work, and provide to MSC information and materials to support MSC execution of the Comprehensive Land Use Plan’s (CLUP) Cultural & Historic Resource Program Plan. In particular, mission contractors (who meet 36 CFR 61 standards and guidelines) shall utilize the MSC project records and files for background research.

**Usage-Based Services**

Cultural reviews are a usage-based service. Hanford Site contractors bear request for services costs.

**Direct-Funded Services**

MSC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.

</tr>
</tbody>
</table>

### Service Description

Radiological Site Services (RSS) is a documented set of comprehensive and integrated radiological support programs which provide the technical support, dosimetry, data, and records necessary to demonstrate compliance with required radiological monitoring and to verify the adequacy of Site radiological control programs in protecting the health and safety of workers, the public, and the environment. The RSS includes the Hanford External Dosimetry Program (HEDP), the Hanford Internal Dosimetry Program (HIDP), the Hanford Radiological Instrumentation Program (HRIP), and the Hanford Radiological Records Program (HRRP).

MSC shall provide:

- DOELAP accredited external dosimetry services, including technical support, documentation, and dosimeter preparation and processing, based on the types and quantities of external dosimetry required by all key customers.
- DOELAP accredited internal dosimetry services, including technical support, documentation, and analyses, based on the types and quantities of internal dosimetry required by all key customers.
- Calibration, maintenance, and repair services as defined in ANSI 323-1978 for a broad range of portable and semi-portable radiological instrumentation, including technical support and documentation, based on the types and quantities of portable and semi-portable radiological instrumentation calibration, maintenance, and repair services required by all key customers.
- Services to maintain, manage, and procure parts or replacements for the existing Hanford Site pool of radiological instruments, including developing processes for necessary replacement, as required by all key customers.
- Performance testing as defined in ANSI 323A-1997, or other standards as requested, to verify instruments continue to meet operational requirements.
- Management and preservation of current and former radiation monitoring records for DOE (and predecessor agencies) employees, Hanford contractors, sub-contractors, and visitors, including records of existing and past Hanford Site radiation dosimetry policies and practices.

On an as-requested basis, MSC will provide dosimetry and bio-assay scheduling, dosimeter distribution, and other services commonly associated with “Dosimetry Operations.” These services will be fully defined in the SOW and agreed upon by the requesting party and MSC.

Hanford Site contractors shall request, and provide requirements for, service.

### Usage-Based Services

Service as described above.

### Direct-Funded Services

### Scope/Cost Allocation

#### Service Description

Analytical Services performs chemical and low-level radiological analysis on a variety of sample media. These services are performed at the Hanford Waste Sampling and Characterization Facility (WSCF).
- MSC shall operate the WSCF.
- Hanford Site contractors shall request analytical services as needed

#### Usage-Based Services

- Sample analysis is a usage-based service reimbursed by the user

#### Direct-Funded Services

- WSCF Laboratory fixed costs for maintaining the facility in a ready-to-serve capacity are at no cost to Hanford Site contractors.

**Scope/Cost Allocation**

**Service Description**

Biological Controls is a service to control noxious weeds, industrial weeds, other vegetation, and animal pests. The program controls vegetation on approximately 2,000 acres, traps and removes animals, and eliminates insect infestations.

- MSC shall provide a Hanford Site-wide biological control program.
- Hanford Site contractors shall request support as needed.

**Usage-Based Services**

Hanford Site contractors may request additional services beyond direct funded basic service as a usage-based service

**Direct-Funded Services**

Basic service funded through MSC; provided at no cost to Hanford Site contractors.
### Scope/Cost Allocation

**Service Description**

The Crane and Rigging is a centralized pool of equipment and manpower for the Hanford Site. The MSC shall:

- Provide a mobile crane pool, a regulated and non-regulated guzzler; coordinate rental and movement of cranes, preventative maintenance inspections and scheduling of necessary repairs; assemble, erect, and disassemble scaffolding and supervises crane crews.
- Manage, and schedule operations involving movable cranes and Crane and Rigging services.
- Maintain and operate cranes, rigging equipment and cable fabrication equipment.
- Chair the Site Hoisting and Rigging Committee.
- Maintain the Hanford Site Hoisting and Rigging Manual (HSHRM) and Hanford Site Hoisting and Rigging intranet web site.
- Hanford Site contractors shall request and provide requirements for service.

**Usage-Based Services**

Service as described above.

### Scope/Cost Allocation

**Service Description**

Facility Services is a central maintenance function for non-radiological facilities.

- MSC shall provide management and administrative oversight for all requested facility activities, including planning and directing the work. MSC shall provide for the following facility services in support of the Hanford Site projects and contractors: facility painting, sign painting, carpentry, refrigerated equipment service, insulation, pipefitting, electrical, sheet metal, instrumentation, cement finishing, glazier work, custodial, locksmith, movers, equipment calibration, and HVAC maintenance and repair.

- PRC and other Site users shall request and provide requirements for service.

- TOC shall only receive Refrigerated Equipment Service, floor service, and Movers Service from and provide input to MSC.

**Usage-Based Services**

Service as described above.

**Direct-Funded Services**

Motor Carrier Services provides a centralized pool of vehicles and drivers for the on-site or local transportation of freight including hazardous material at the Hanford Site, including radioactive materials and radioactive/mixed waste.

- MSC shall:
  - Manage, schedule, and conduct motor carrier services.
  - Maintain and operate a centralized pool of vehicles and drivers for the on-site and limited local transportation of freight including hazardous and radioactive materials at the Hanford Site.
  - Act as the Hanford Site motor carrier similar to a commercial motor carrier.
  - Provide compressed gas shipments.
  - Pick up at local vendors as directed by their customers.
  - The Hanford Site contractor will prepare freight for shipment (packaging the freight) and provided associated documentation or direct a pick up of freight from a particular Site contractor or vendor.
  - The preferred method for shipment of freight to other DOE site or to commercial vendor(s) is using a commercial motor carrier.
  - Upon mutual agreement, the Contractor may provide a limited number of specialized vehicles to Other Hanford Site Contractors to support the efficient management of resources. Any vehicles provided by the MSC will remain in the MSC Fleet Maintenance Programs.

- Hanford Site contractors who are customers of this service prepare the waste for transport including shipper/receiver agreement documents, transportation documents for packaging, transportation and receipt by the receiving facility.

**Usage-Based Services**

Service as described above.

**Direct-Funded Services**

<td>Optional</td>
<td>Receive service from and provide input to MSC as applicable</td>
</tr>
</tbody>
</table>

**Scope/Cost Allocation**

**Service Description**

Fleet Services administers and manages a fleet of motorized vehicles and equipment including, but not limited to sedans, pickups, vans, busses, ambulances, tractors, flatbeds, dump trucks, tool vans, utility maintenance vans, cab and chassis, trailers, forklifts, cranes, generators, compressors, excavators, frontend loaders, dozers, wreckers, and fuel tankers.

- MSC shall provide management and coordination, statistical usage tracking, and reporting on GSA-leased vehicles and DOE-owned vehicles/equipment; perform vehicle and equipment repair and modification services as required (e.g., in the 200 Area); and perform record-keeping, vehicle assignment, ensuring vehicle utilization, and excess/disposal of fleet vehicles and parts. Some vehicles are designated as "regulated" due to contamination and are required to be serviced within radiologically-controlled areas.
- MSC shall provide and execute the DOE approval of equipment/vehicle procurements when necessary.
- Hanford Site contractors shall request and provide requirements for service and those using Fleet Services shall provide report input such as the *Transportation Management Scorecard*.

**Usage-Based Services**

Fleet facilities maintenance, operations support, consumables, fuel delivery, maintenance, parts, and labor for the DOE fleet.
- Vehicle maintenance services, including inventory of or access to parts normally used for routine maintenance.
- Routine preventive maintenance and inspections in accordance with manufacturer specifications, GSA schedules, and OSHA safety regulations.
- Vehicle and equipment corrective maintenance, as required to maintain performance and air quality standards.
- Performance of GSA non-reimbursable services, such as in-the-field service calls (including towing).
- Major component repair and reconstruction of failed major operating and drive train components.
- Auto body, glass and upholstery repair services.
- Performance of customer-specified non-maintenance mechanical support, vehicle and equipment modifications, auxiliary equipment installation and transfer, accident damage repair, and special fabrication services.
- Purchase and distribution of bulk fuel to heavy equipment located in the field.

Direct-Funded Services

- Management of the process for the acquisition, control, assignment, and disposal of DOE fleet equipment and GSA vehicles and associated property, which includes general and special purpose equipment.
- Administration of the GSA lease.
## Scope/Cost Allocation

### Service Description

The Hanford railroad system consists of approximately 40 miles of Class II track and one signal crossing between Horn Rapids Road and the 200W Area.

- MSC determines requirements for future use on the Hanford Site and coordinates with Hanford Site contractors, projects, and off-Site entities prior to and during any on-site rail movements, including placement of “flaggers” at necessary intersections, taking proper security actions, and making Hanford Site notifications.
- Upon DOE direction, MSC shall maintain and operate the rail system on the Hanford Site.
- Hanford Site contractors shall request and provide requirements for service to the MSC.

### Usage-Based Services

Service scope as defined above

### Direct-Funded Services

Scope/Cost Allocation

Service Description

Roads and Grounds consist of road maintenance, 24/7 snow removal, traffic management, and common grounds maintenance service for the Hanford Site.

Usage-Based Services

- Hanford Site contractors may request additional services for facility specific services, such as, snow removal on sidewalks.

Direct-Funded Services

- MSC shall maintain primary and secondary Hanford Site roadways, to include patching/paving, striping, and other services; perform maintenance of common grounds; and make recommendations to restrict access and make the appropriate notifications of restricted access or closure to DOE and other Hanford Site contractors in the event that roads are unsafe for travel. MSC shall remove snow at primary and secondary roads and at designated facilities, parking lots, and walkways (per the Hanford Snow Removal Plan).
- Maintain the common grounds to ensure public/worker safety and environmental integrity within the 200, 300, and 600 Areas. Activities in this area include perimeter fence/sign maintenance at the Site boundaries; lawn and landscape care; annual inspection and maintenance of gravel pits; general area cleanup; sweeping sidewalks; washing buildings; sweeping general purpose facility parking lots and repairing bumper blocks.

### Scope/Cost Allocation

**Service Description**

Electrical Transmission, Distribution, & Energy Management is the management function of the high voltage electrical utility consisting of a system for providing power to the facilities at the Hanford Site.

- MSC externally supplies electrical power to Hanford Site contractors.
- MSC shall coordinate with other Hanford Site contractors to obtain the following:
  - Energy cost and consumption data for the *Annual Energy Conservation Performance Report*.
  - Energy cost and consumption data for the quarterly Hanford Site energy cost and consumption date entry to EMS4 database.
  - Facility shut down constraints and impacts due to fuel reductions for the *Emergency Conservation Plan*.
  - Facility electrical load information for the annual electrical load forecast.
  - Other facility electrical or energy information, as needed.
- Hanford Site contractors shall provide input for EMS4 database, annual Energy Conservation Performance Report, Emergency Conservation Plan, and annual electrical load forecast.
- Hanford Site contractors may enter into a service-provider relationship with the MSC and/or other utility providers for the operation, maintenance, and/or closure of all or part of their internal utility systems.
- Hanford Site contractors shall protect Hanford Site systems against disruption and damage during performance of work and support Hanford Site utility operations, maintenance, and closure of a service where appropriate.

**Notes:**

- The interface point between the MSC electrical distribution system and the Hanford Site contractors’ facilities electrical system is routinely the connection at the secondary side of the building service transformer (MSC also owns the electrical meters). However, there may be some facilities where the systems interface is located at a different connection point. The interface points are identified on the electrical utility switching system diagram drawings.
- The 300 Area electrical substation and electrical distribution system will be owned by the RCCC. The RCCC may request MSC to operate and maintain the 300 Area substation and distribution system on a work order basis. Upon completion of the RCCC, or as directed by DOE, the substation/distribution system may be reassigned to the MSC.
Direct, mission-related upgrade projects are sub-contracted by MSC and paid by the requesting Hanford Site contractor.

**Direct-Funded Services**

Basic service funded through MSC; provided at no cost to Hanford Site contractors.

<td></td>
</tr>
</tbody>
</table>

### Scope/Cost Allocation

#### Service Description

The Water System function is a water utility service (the geographic areas to be served are the 100, 600, and 200 Areas). The 300 Area and 100N Area water systems are within the scope of the RCCC, along with the 30-inch concrete line supplying the 100F and 100H Areas, and all distribution piping connecting to the concrete main water lines supplying the 100F, 100H, 100D, 100N, and 100B Areas.

- MSC shall manage the water system in accordance with agreements negotiated with the Hanford Site contractor being served and in accordance with guidance documents cited in state regulations for water systems; and maintain the existing *Water System Master Plan*. The Plan shall document a strategy for managing repairs, life extensions, replacements, and deactivations for facilities and equipment for the water systems within the scope of this contract over a ten year planning horizon.
- MSC shall provide a “purveyor” (per the Washington Administrative Code and other state regulations) for MSC water systems.
- MSC shall be responsible for all aspects of the water distribution system only up to and including the first off-valve or demarcation point outside the customer’s facility or complex of facilities. The customer or facility maintains all responsibility for lines downstream of this agreed-upon point. On side-by-side multiple valve isolations and backflow assemblies, the facility assumes responsibility from the discharge side of the downstream isolation valve. For WTP, the demarcation point is the premise isolation backflow prevention at the fence line. For PFP, the demarcation point is the premise isolation backflow assembly.
- MSC shall perform, as requested, backflow preventer testing, water system contaminant monitoring management, and pipeline sanitization for other Hanford Site contractors (e.g., water systems outside of MSC):
  - Hanford Site contractors shall input to the *Water System Master Plan* and negotiate agreements for water utility service.
  - PRC shall identify priority water line upgrades which would prevent further ground water degradation; MSC shall perform priority water line upgrades to prevent further ground water degradation.
  - Upon completion of the RCCC, or at the direction of DOE, the 300 Area water system may be reassigned to the MSC.

**Note:** The 100K Area and 400 Area Water Systems will be operated and maintained by the PRC.

#### Usage-Based Services

Direct, mission-related upgrade projects are paid for by the Site contractor requiring the upgrade. For water systems outside of the MSC, water system contaminant monitoring management is a usage-based service reimbursed by the user. Water permits for Hanford Site contractors’ new facilities is a usage-based service.
### Direct-Funded Services

Hanford Site-wide water upgrades and Basic Service are funded through MSC; provided at no cost to site contractors.

### Scope/Cost Allocation

**Service Description**

- Sewer system operations provide sewer pumper truck services and collection of sewage through piping for treatment and disposal in subsurface soil absorption systems. The geographic areas to be served are the 600 Area and 200 Area. The 100N Area sanitary sewer system, -100 B Area, C Area, D Area, F Area, H Area, and the 200 Area ERDF sanitary sewer holding tanks, and the 300 Area sanitary sewer system are within the scope of the RCCC. MSC shall operate the Hanford Site sanitary sewer systems, including compliance sampling; maintenance of support structures, systems, and components; and performance of sewer administration duties in accordance with the State of Washington sanitary sewer regulations.
- MSC shall update the existing *Sewer System Master Plan*. The Plan shall document a strategy for managing repairs, life extensions, replacements, and deactivations for facilities and equipment for the sewer systems within the scope of this contract over a ten year planning horizon and shall be updated every two (2) years.
- Hanford Site contractors shall provide input to the *Sewer System Master Plan*.
- Legacy facilities that are returned to service will be treated as a base, unless special circumstances require facility upgrades.

**Notes:**

- The 100N Area sanitary sewer system, 100 B Area, C Area, D Area, F Area, H Area, and the 200 Area ERDF sanitary sewer holding tanks, and the 300 Area sanitary sewer system are excluded from the scope of this Contract. These sewer systems are within the scope of the RCCC. Upon completion of the RCCC, or at the direction of DOE, utilities assigned to the RCCC, may be reassigned to the MSC.
- The 100K Area and 400 Area sanitary sewer systems will be operated and maintained by the PRC.

**Usage-Based Services**

Direct, mission-related upgrade projects are paid for by the Hanford Site contractor requiring the upgrade. Hanford Site contractors are responsible for facility-specific upgrades or new facilities sewer tie-ins under their control. Sewer permits for Hanford Site contractor new construction or project upgrades are a usage-based service.

**Direct-Funded Services**

Hanford Site-wide sewer upgrades and basic service are funded through MSC; provided at no cost to Hanford Site contractors.

**Scope/Cost Allocation**

**Service Description**
Sanitary Waste Management and Disposal function consists of waste collected from on-site dumpsters and transport to off-site landfills for disposal. MSC shall pick-up, inspect, and dispose of non-radioactive, non-hazardous dry waste.
- Hanford Site contractors shall request and provide requirements for service.

**Usage-Based Services**
Delivery and disposal of sanitary waste for roll off boxes is a usage-based service reimbursed by the user.

**Direct-Funded Services**
- Management and oversight of Hanford sanitary, inert, and demolition waste landfills that are currently in operation or closed.
- Delivery of and disposal of sanitary waste for dumpsters is provided at no cost to Hanford Site contractors.

**Scope/Cost Allocation**

**Service Description**

Land-Use Planning and Management consists of land-use planning (for the Hanford Site, in general and specific parcels) and management (including day-to-day implementation of the Comprehensive Land Use Plan [CLUP]).

- MSC shall perform management of real property at the Hanford Site for DOE and coordinate the use of real property among Hanford Site contractors. MSC shall perform a range of real property activities, such as conducting land-use planning for areas and specific parcels; conducting reviews and integrating land-use requests for all new facilities, infrastructure systems, land improvements, or change of land use; conducting land management activities, including day-to-day implementation of the CLUP; managing land use requirements and beneficial reuse of land; and conducting real estate activities in the out-grant and disposal of real property or interests therein.
- MSC shall implement the CLUP as directed or interpreted by DOE. MSC shall assess the need for updating the existing or developing new Area Management Plans and Resource Management Plans. In coordination with other Hanford Site contractors, the MSC shall develop new plans and update existing plans where applicable.
- MSC shall administer and manage the Site Selection and Excavation Permit process.
- MSC shall monitor and assess the use of real property to assure compliance with restrictions, such as institutional controls.
- MSC shall manage real property by reviewing property uses, reclassifying land use and facilities, investigating and characterizing land, monitor misuse of property or encroachments, identifying orphan or unknown land uses (e.g., non-pristine land, hazards, and waste sites), dispositioning non-permitted activities; and tracking and documenting land-use occurrences and activities.
- Hanford Site contractors shall support the land-use planning and management program as administered by the MSC, including providing input to the Ten Year Site Plan (TYSP).
- MSC shall develop the TYSP for the Hanford Site in coordination with other Site contractors.

**Usage-Based Services**

Excavation permits are provided as a usage-based service.

**Direct-Funded Services**
MSC bears the cost burden of program administration. Hanford Site contractors bear internal implementation costs.
Long-term stewardship (LTS) includes all engineered and non-engineered institutional controls designed to contain or to prevent exposures to any potential residual contamination and waste, such as surveillance activities, record-keeping activities, inspections, groundwater monitoring, ongoing pump and treat activities, cap repair, maintenance of entombed buildings or facilities, maintenance of other barriers and containment structures, access control, and posting signs.

- Other prime contractors’ role is to provide input to the MSC by preparing an LTS Transition and Turnover Package (TTP) in accordance with the approved TTP template.
- MSC shall provide for integrated planning of LTS for the entirety of the Hanford Site.
- MSC shall coordinate with DOE-RL and Hanford Site contractors to conduct the Hanford Site-wide Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) 5-year reviews including comment response, interim documentation, and lessons learned.
- MSC shall execute LTS for those portions of the Site assigned to the MSC.
- Hanford Site contractors provide information for the Hanford Long-Term Stewardship Program Plan and Long-Term Surveillance and Maintenance Plans.
- MSC shall coordinate with DOE-RL and Hanford Site contractors to compile the results of the annual Hanford Site-wide institutional controls assessment, and to conduct the Hanford Site-wide Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) 5-year reviews including comment response, interim documentation, and lessons learned.
- MSC shall coordinate with the MSC in development of CERCLA RODs including institutional controls to achieve consistency with the LTS Plan.
- Hanford Site contractors shall provide information for the Hanford Site Institutional Controls Plan (ICP) in accordance with Hanford Site CERCLA Records of Decision, Hanford Site RCRA post closure plans, and RCRA Permit Corrective Action Modifications.

Usage-Based Services

N/A

Direct-Funded Services

MSC bears the cost burden of program administration. Cost for sites transferred (post-remediated) to MSC are the responsibility of the MSC. Hanford Site contractors bear internal implementation costs. Transition costs are the responsibility of the respective Hanford Site contractor.

### Scope/Cost Allocation

**Service Description**

DOE uses FIMS as the Complex-wide real property database for real property which provides an inventory and management tool that assists with planning and managing real property assets. FIMS is centrally managed at DOE Headquarters.

- MSC shall manage the local effort for FIMS, meeting specific, annual reporting requirements and shall be responsible for collecting data from Hanford Site contractors in order to meet all mandatory reporting requirements.
- Hanford Site contractors deliver FIMS data and input to the *Comprehensive Data/Site Management Strategy* for spatial data

**Usage-Based Services**

**Scope/Cost Allocation**

**Service Description**

The Hanford Site Structures List (List) and Hanford Site Assignment List is the integrated, central inventory of Hanford facilities, structures, and waste sites. DOE Hanford uses these lists for integrated planning of baselines, cost-estimating, reporting DOE Gold Chart metrics, establishing assignment of responsibility for each facility and waste site to site contractors, support to FIMS, HSTD (Hanford Site Technical Data Base), Caretaker, and WIDS. This activity provides for maintenance, configuration control, and upgrading of the Lists.

- MSC shall maintain the Hanford Site Structures List and Hanford Waste Site Assignment List serving as Administrator of the data, and is responsible for the platform for the data and Site-wide reporting.
- MSC shall be responsible for the Site-wide configuration control process, and shall be responsible for collecting data from Hanford Site contractors in order to meet all mandatory reporting requirements.
- Proposed changes in assignment of facilities must be ratified by DOE.

Hanford Site contractors deliver facilities, structures, and wastes site data and input to the Hanford Site Structures List and Hanford Waste Site Assignment List. The Hanford Site contractors shall provide data and support to the MSC, for the Hanford Sites contractor’s facilities, waste sites and activities, to support maintenance of the Hanford Site Structures List and Hanford Waste Site Assignment List. Hanford Site contractors supplying information/data are responsible for data quality.

#### Scope/Cost Allocation

**Service Description**

CAS is used to assess the current material condition of its facilities, structures, systems, and equipment, and documents maintenance deficiencies. The assessment information for each assessed item is entered into the Condition Assessment Information System (CAIS), which provides an estimate of maintenance upgrade costs.

- MSC shall manage the Hanford Site CAS/CAIS and provide for the administration of and execution of the CAS inspection program in order to accurately evaluate the existing state of specific facilities and identifying the deferred maintenance liability.
- MSC shall coordinate all of the necessary inspection activities with the various site contractors that have eligible facilities for CAS inspections.
- MSC shall make the CAS data available to the mission contractors.
- Hanford Site contractors shall enable access to MSC for conducting on-site condition assessments.

**Usage-Based Services**

### Scope/Cost Allocation

#### Service Description

Geospatial Information (relates the visualization, measurement, and analysis of features or phenomena that occur on the earth) supports the execution of requirements for worker health, land use planning, emergency response, etc., and is available to all Hanford Site contractors.

- MSC shall develop and implement a comprehensive *Hanford Geospatial Information Strategy and Implementation Plan (H-GIS)* to ensure that all spatial data, information and documentation required for accomplishing the Hanford Site missions are captured, managed, and preserved.
- The MSC shall provide general and business-specific Hanford Site maps, and act as a central geospatial clearinghouse to coordinate, capture, manage, and share geospatial information, including management of the Hanford Geographical Information System (HGIS).
- Hanford Site contractors deliver data to MSC and input to *Comprehensive Data/Site Management Strategy* for spatial data.

#### Usage-Based Services

Hanford Site contractors may request business-specific map services as a usage-based service.

#### Direct-Funded Services

MSC bears the cost burden of program administration. Hanford Site contractors bear internal implementation costs.

### Scope/Cost Allocation

### Service Description

Property Systems/Acquisition & Materials Management consists of Site-wide processes and procedures for centralized personal property management functions, such as recycling of precious metals and processing equipment that is no longer needed through the excess property system. Tracking of all DOE-owned, contractor-managed property (site-wide) is accomplished by means of decentralized data entry into the primary property management site-wide database (Sunflower Asset Management System [SAMS]). The Program also manages the centralized storage and staging of equipment and inventory through the use of various on-Site warehouses.

- MSC shall provide a Site-wide Personal Property Systems and Materials Management Program that provides for tracking of accountable personal property, management of the property management database (Sunflower Asset Management System [SAMS], including providing Site-wide property management reports) and other related systems; central recycling; excess property dispositioning; and equipment transfers and loans.
- MSC shall manage the (on-site) "stores" inventory warehouses. As required, the MSC shall provide for delivery of inventory items to on-Site locations managed by other contractors. MSC shall manage the supply chain, and evaluate Site-wide demand, usage trends, and programmatic requirements to act as lead in the reduction of existing line item site inventory to the lowest achievable levels.
- Hanford Site contractors deliver input to MSC to include warehouse requirement needs, Property Information Data Systems (PIDS) data, and Contractor Balanced Scorecard Report data; and deliver property no longer required.

### Usage-Based Services

Hanford Site contractors bear costs associated with delivery of excess materials to the central recycling and turn-over of excess property for disposition.

### Direct-Funded Services

MSC bears the cost burden of program administration. Hanford Site contractors bear internal implementation costs.

**Scope/Cost Allocation**

**Service Description**

Multi-media Services provides for the development, production, or acquisition of photos, videotapes, movies, audio productions, and other similar types of media.

- MSC multi-media organization shall be a centralized resource for the Hanford Site. The contractor shall establish the standards and written procedures that shall be used by all Hanford Site contractors and DOE to inventory photographs, videos, etc, identified as records. The standards/procedures shall direct that all photos, videos, etc. taken or acquired are indexed, and that the images/photos are merged into a Hanford Site archive or clearinghouse.
- MSC shall conduct aerial photography of the Hanford Site (e.g., monthly), as directed by DOE.
- Whether using MSC, or procuring outside services, Hanford Site contractors shall:
  - Comply with Hanford Site multi-media standards
  - Provide multi-media records to the MSC.

**Scope/Cost Allocation**

**Service Description**

Radio Services for Crafts provides radio communication infrastructure and licensing.

- MSC shall provide engineering, maintenance and operations of non-emergency radio communication services, including associated infrastructure.
- MSC shall manage radio spectrum licensing and design, engineering integration, operations and maintenance, installation, upgrade and required system calibration services, and registration of radio frequencies with the National Telecommunications and Information Administration.
- Hanford Site contractors shall request and provide requirements for service. If procuring radios, the contractor must comply with Hanford Site specifications.
- Equipment (radios, antennas, etc.) costs are the responsibility of the Hanford Site contractor.

**Usage-Based Services**

Service as described above.

**Direct-Funded Services**

**Scope/Cost Allocation**

**Service Description**

Radio Services for Emergency Services provides radio communication infrastructure and licensing.
- MSC shall provide engineering, maintenance and operations of radio communication services, including two-way, fire dispatch, safety and emergency preparedness, security systems and infrastructure.
- MSC shall manage radio spectrum licensing and design, engineering integration, operations and maintenance, installation, upgrade and required system calibration services, and registration of radio frequencies with the National Telecommunications and Information Administration.
- Hanford Site contractors shall:
  - Follow Hanford Site radio frequency policy and use the MSC for radio spectrum licensing; and
  - Request and provide requirements for service.

**Usage-Based Services**

Equipment (radios, antennas, etc.) costs are the responsibility of the Hanford Site contractor.

**Direct-Funded Services**

Service as described above.

### Scope/Cost Allocation

**Service Description**

Network Services consist of the Hanford Local Area Network (HLAN) information infrastructure used by DOE-RL, DOE-ORP and Hanford Site contractors for intranet and internet services.

- MSC shall operate and maintain the HLAN information/communication infrastructure including Application Hosting Services, Internet Support, Maintenance and Software License Management, Technology Support for Hardware and Software, network management and maintenance, desktop/user services, hardware maintenance, workstation acquisition, redeployment and retirement, engineering and configuration, software distribution, and streaming video engineering services. The MSC will also provide HLAN infrastructure maintenance.
- Hanford Site contractors shall request and provide requirements for service.

### Scope/Cost Allocation

### Service Description

Information Systems provide integrated business, technical, and project information systems including management and performance of steady state operations, maintenance, development and enhancements for Hanford Site data systems, and support to project and business functions.

- MSC provides database management, video-teleconferencing (VTC) support services, software and systems engineering, system development, systems operations and maintenance (O&M), software testing, software configuration management, and application hosting services.
- Hanford Site contractors shall request and provide requirements for service.

### Usage-Based Services

Hanford Site contractors may request additional services as a usage-based service.

### Direct-Funded Services

Service as described above.

**Scope/Cost Allocation**

**Service Description**

Inventory and Schedule Management provides the Hanford Site-wide RIDS database for inventorying and scheduling all Federal records for MSC and for designated contractors including those documenting the missions, programs, projects and all administrative functions. This work addresses all records (and non-records) originated or held by any of the covered contractors and includes records in all media, including electronic systems, databases, spreadsheets, microform, photo/negatives, hard copy paper, and all other formats and media.

- MSC shall provide Hanford Site-wide RIDS database for Hanford Site Federal records.
- Other Hanford Site contractors shall provide RIDS database information.

**Usage-Based Services**

Optional service beyond the basic service described above

**Direct-Funded Services**

Service as described above

[Return to top]
### Scope/Cost Allocation

**Service Description**

Major Collection Management provides continued maintenance of significant collections of records. Examples of major collections include engineering drawings, photographs/negatives, videotapes, etc.

- MSC shall ensure that records in identified collections are indexed, authenticated, metadata complete, and are accessible to those that have a business requirement.
- Hanford Site contractors shall meet the requirements of Major Collection Management as administered by the MSC.

**Usage-Based Services**

N/A

**Direct-Funded Services**

MSC bears the cost burden of program administration. Hanford Site contractors bear internal implementation costs.

### Scope/Cost Allocation

**Service Description**

Hanford Portfolio Planning, Analysis & Performance Assessment consists of support to DOE-RL and DOE-ORP in maintaining the *Integrated Hanford Life-Cycle Clean-up Plan* that optimizes the mission life-cycle, enabling DOE to ensure cost and schedule efficiency while adequately anticipating and managing programmatic risk.

- MSC shall perform Hanford Site portfolio integration, provide simulation and optimizing analysis tools, and coordinate and assist with integrated scheduling and performance evaluation.
- MSC shall develop an Integration Issues Management Plan, provide Hanford Portfolio Planning, develop and maintain an Integrated Hanford Life-Cycle Clean-up Plan, and shall evaluate project and program performance against the Integrated Hanford Life-cycle Baseline.
- Hanford Site contractors shall provide information to the MSC as necessary to complete the Hanford Portfolio Planning, Analysis & Performance Assessment activities.

### Usage-Based Services

### Scope/Cost Allocation

### Service Description

Independent Assessment and Analysis provides to DOE a capability for ensuring that work is being accomplished in accordance with ESH&Q requirements, or to accomplish special DOE studies and obtain recommendations on an as needed basis to resolve technical and regulatory issues.

- As directed by DOE, MSC shall provide specialty technical expertise, on a task-order basis, for areas such as project management, project control, cost estimating and scheduling, environmental, safety, quality and health, quality assurance, criticality, nuclear safety, radiological control, fire protection, environmental protection, regulatory compliance, Integrated Safety Management System, etc., and conduct independent analyses and generate technical assessment reports as needed in these areas.
- Hanford Site contractors shall provide data and facility access to the MSC as required by the Independent Assessment and Analysis activity.

Scope/Cost Allocation

Service Description

This activity provides for LLW and MLLW Treatment, Storage, and Disposal.
- PRC shall perform waste unloading, receipt, storage, and disposal of LLW and MLLW.
- Hanford Site contractors prepare waste, including packaging and treatment, and provide for waste transport.

Usage-Based Services

- Waste generators provide funding for packaging, treatment, transport (including unloading), storage, and disposal.
- RCCC only pays for treatment, packaging, and transport.
- TOC pays WTP waste disposal costs.

Direct-Funded Services

PRC provides ready-to-serve capability.
## WIPP Core Characterization Project Services and Interface Activities

### Transuranic Waste Characterization and Certification

<table>

<td>N/A</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Scope/Cost Allocation

- Provides support to CCP characterization and certification activities. Receives waste from site users.
- Package and deliver TRU to PRC.
- Except DOE, package and deliver TRU to PRC.

### Service Description
This activity provides for TRU and TRUM certification and loading waste for shipment to the Waste isolation Pilot Plant (WIPP).

- PRC shall receive waste from contractors, provides interim storage if required, certifies waste for shipment, prepares payloads, and loads waste for shipment to WIPP or other DOE Sites.
- Hanford Site contractors shall conduct and budget for packaging (if required by WAC) and transporting waste to PRC, and certify for WIPP and load waste for shipment to WIPP or other DOE Sites.
- CCP will provide, operate, and maintain RTR equipment, drum assay equipment, large box NDE/NDA equipment (if needed), and mobile loading equipment.
- CCP will operate and maintain the Hanford Super-HENC equipment for Standard Waste Box (SWB) assay.
- CCP will operate the Shipping and Receiving Bay within WRAP for TRUPACT loading. PRC will operate and maintain the balance of the WRAP facility.
- CCP will provide the equipment for and perform head space gas sampling (HSGS) and analysis.
- CCP will establish and implement appropriate ESH&Q programs to support CCP activities.
- PRC will perform initial (in-field) assay of retrieved waste, as necessary, to segregate TRU from non-TRU waste.
- PRC will perform all waste repackaging activities.
- PRC will provide facility records, packaging records, and other documents necessary for CCP to prepare waste certification packages.
- PRC will provide the necessary public release clearances for CCP generated documents.
- PRC will provide the infrastructure to support installation and operation of the CCP-provided RTR equipment, drum assay equipment, and mobile loading equipment.
- PRC will provide the facility and infrastructure to support the installation and operation of the large box NDE/NDA equipment, if needed.
- PRC will provide mobile crane and crane operator support for CCP mobile loading equipment.
- PRC shall receive TRU waste from other site users and provide interim storage if required.
- PRC will identify ESH&Q interfaces with CCP.
- Other Hanford Generators of TRU waste will provide TRU waste to PRC that complies with WIPP waste acceptance criteria.

Usage-Based Services

- Waste generators provide funding to PRC for the increment of work resulting from their waste.
- RCCC pays only for TRU treatment and packaging, and TRU transport to PRC.

Direct-Funded Services

PRC provides ready-to-serve capability for TRU waste receipt, storage, and repackaging.
Scope/Cost Allocation

Service Description

This activity provides for treatment and disposal of radioactive liquid effluents in the 200 Area and retention and transfer of industrial liquid effluents in the 300 Area.

- PRC shall operate the Effluent Treatment Facility (ETF), Liquid Effluent Retention Facility (LERF), 200 Area Treated Effluent Disposal Facility (TEDF), and the State Approved Land Disposal Site (SALDS) to receive, treat, and dispose of industrial and radioactive liquid effluents from Site contractors in the 200 Areas. RCCC is responsible for overall management of the 300 Area combined sanitary/process sewer (CS) that discharges to the City of Richland Publicly Owned Treatment Works and administrative duties associated with Permit No. CR-IU010.
- PRC shall operate the 300 Area Retention Transfer System (RTS) to receive, and retain industrial liquid effluents from Site contractors in the 300 Area and discharge compliant effluent to the CS. Hanford Site contractors shall send waste to PRC and RCCC facilities.
- RCCC shall administer the 300 Area Effluent Discharge Permit.

Usage-Based Services

N/A

Direct-Funded Services

Funded through PRC; provided at no cost to Hanford Site contractors. Hanford Site contractors bear internal implementation costs.

**Scope/Cost Allocation**

**Service Description**

This activity provides for storage of IHLW.

- PRC shall operate and maintain the Canister Storage Building.
- TOC and PRC shall coordinate on modifications of the CSB for receipt of the IHLW.

**Usage-Based Services**

Modifications to CSB or construction of other storage capability funded by TOC.

**Direct-Funded Services**

PRC funds ready to serve operations of the CSB.

### Scope/Cost Allocation

#### Service Description

The Groundwater/Vadose Zone Integration activity maintains and controls site-wide data and models used for groundwater/vadose zone analysis and coordinates site-wide groundwater/vadose zone activities.

- PRC shall conduct the groundwater/vadose zone integration project.
- Hanford Site contractors shall participate in PRC periodic planning and coordination meetings; and deliver modeling and risk assessment information. Mission contractors shall provide comments on the annual update to the *Integrated Plan and Schedule for all soil and groundwater work*, and the annual *Groundwater Monitoring Report*.
- Hanford Site contractors shall supply groundwater analysis requirements and reporting of risk assessment data and analysis, input for the Fiscal Year Integrated Groundwater Monitoring Plan for the Hanford Site, comments on the *Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA)* Groundwater and Deep Vadose Zone Remediation Activity Progress Reports.
- Hanford Site contractors shall provide data/information to PRC on self-performed drill and sample soil borings that yield additional vadose zone characterization data.

### Scope/Cost Allocation

**Service Description**

This activity provides for maintenance, configuration control, and upgrading of key Hanford Site environmental assessment databases.

- The PRC shall serve as Data Manager for the following information systems:
  - Hanford Environmental Information System (HEIS);
  - Sample Data Tracking (SDT) System;
  - Hanford Well Information System (HWIS);
  - Waste Information Data System (WIDS).

- The Hanford Site contractors shall provide data and support to the PRC, for the Hanford Sites contractor’s facilities and activities, to support maintenance of the above listed Hanford-wide environmental databases. Hanford Site contractors supplying information/ data are responsible for data quality.

**Usage-Based Services**

N/A

**Direct-Funded Services**

Scope/Cost Allocation

Service Description

The Tank Closure and Waste Management Environmental Impact Statement (EIS) and Record of Decision (ROD) is a regulatory requirement supporting Hanford Site closure activities. DOE is currently preparing the Tank Closure and Waste Management (TC & WM) Environmental Impact Statement (EIS). The TC & WM EIS is evaluating options for managing and disposing of waste, supplemental treatment, tank closure and establishing final end states for the Fast Flux Test Facility (FFTF) at Hanford. These decisions are expected to be applied to the related programs after 2009.

- DOE-ORP will develop the Tank Closure and Waste Management EIS and ROD.
- Hanford Site contractors shall provide input to the Tank Closure and Waste Management EIS and ROD.

Usage-Based Services

N/A

Direct-Funded Services

Hanford Site contractors bear the cost of their respective resources for this activity.
### Waste Treatment and Immobilization Plant Support

#### Scope/Cost Allocation

**Service Description**

- WTP interface provides support for WTP construction.
- MSC, PRC, and TOC will participate with WTP in the revision and approval of WTP Interface Control Documents (ICDs).
- TOC shall be responsible for coordinating, planning, and paying for the WTP contractor's requirements for infrastructure, utility, and service support from the MSC and PRC as identified in the J-3 Hanford Site Services and Interface Requirements Matrix.
- ICDs identify interface requirements, technical and service gaps, and document issues in order to support efficient and timely construction, startup, commissioning, and operation of WTP. ICDs do not represent contractual obligations between the executing parties or the government.
- WTP shall maintain WTP Interface Control Documents.

WTP ICDs include:
- ICD 1, Raw Water
- ICD 2, Potable Water
- ICD 3, Radioactive Solid Wastes
- ICD 5, Non-Radioactive, Non-Dangerous Liquid Effluents
- ICD 6, Radioactive Dangerous Liquid Effluents
- ICD 9, Land for Siting
- ICD 11, Electricity
- ICD 12, Roads
- ICD 14, Immobilized High-Level Waste

**Scope/Cost Allocation**

**Service Description**

The Occupational Health Services Contractor (OHSC), under a separate prime contract to DOE-RL, provides occupational health services through health risk management and occupational health services to personnel at Hanford. The contractor has the lead to coordinate Health Risk Management program teams with the Site in identifying and analyzing the hazards that Hanford personnel face in the work environment and brings an awareness of health and safety issues to DOE, Hanford Site contractors, and others. The contractor provides the following, but is not limited to these types of services: medical monitoring and qualification examinations, including the controlled substances/alcohol testing program (mandatory use); diagnosis of occupational injury or illness; monitored care; legacy health issues; employee counseling and health promotion; occupational health process improvement; human reliability testing; records management; emergency and disaster preparedness; health care cost management; field/facility visits; case management; records and data extraction; other occupational medicine services; reporting; and supporting transition.

Sample Analysis (highly radioactive)

Service Fee for Service Mandatory N/A Receive services from LAS&T Receive services from LAS&T N/A N/A N/A LAS&T - Provide services to TOC and PRC

Scope/Cost Allocation

Service Description

Analytical Services are performed by the Laboratory Analytical Services and Testing Contractor (LAS&T) under a separate prime contract to DOE-ORP. LAS&T is responsible for providing analysis of highly radioactive samples in support of Hanford Site projects. These services will be performed in the 222-S Laboratory Complex located in the 200 Area of the Hanford Site.

The LAS&T is responsible for: receiving samples, which are potentially highly radioactive; preparing samples, which are potentially highly radioactive for analysis; recording and tracking all samples and related waste materials; performing chemical and radionuclide analyses using necessary quality control and quality assurance; reporting the results and archive sample remainders as required by the customer; and providing Standards Laboratory services for the Hanford Site.

Service users will develop annual Service Level Agreements upon which Fee for Service will be based.

ATTACHMENT 6: ADVANCED AGREEMENT – PROCEDURES FOR CHARGING COSTS TO WORKFORCE RESTRUCTURING

Advance Agreement
Procedures for Charging Costs Related to Workforce Restructuring

Pursuant to FAR 31.109, “Advanced Agreements,” Advance Technologies and Laboratories International, Inc. (ATL) and the United States of America, represented by the Department of Energy (the Government) enter into this Advance Agreement (Agreement) on the 15th day of June 2011. This Agreement will be incorporated into Section J of the contract (Contract DE-AC27-10RV15051) when signed.

REFERENCES
- FAR 31.109 – Advance Agreements
- FAR 31.205-6(g)(5) – Abnormal or mass severance pay
- Hanford Site Workforce Restructuring Plan (as amended May 21, 2002)
- Contract DE-AC27-10RV15051

SCOPE

ATL expects to incur significant severance pay costs of an unusual and non-recurring nature on Contract DE-AC27-10RV15051 due to a Department of Energy approved workforce-restructuring plan that reduces the number of personnel that can charge to the contract.

Severance pay is a payment to workers whose employment is being involuntarily terminated. Severance pay is allowable under Government contracts when it is required by law, employer-employee agreement, established policy that constitutes, in effect, an implied agreement on the contractor’s part or circumstances of the particular employment (FAR 31.205-6(g)). ATL’s request and the Government’s Hanford Site Workforce Restructuring Plan satisfy the allowability criteria of this cost principle.

ATL has not accrued any costs associated with these required severance payments in its indirect pools and books. Abnormal or mass severance pay is of such a conjectural nature that accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, the Government will consider allowability on a case-by-case basis (FAR 31.205-6(g)(5)).

The sum of severance payments (including applicable taxes) is estimated not to exceed $700,000.

METHODOLOGY

It is agreed that severance payments along with applicable FICA, FUTA, and SUTA taxes (and any other directly associated costs) shall be charged directly to Contract DE-AC27-10RV15051 in the accounting period when the obligation to make such payments arises. It is further agreed that no indirect costs shall be allocated to these amounts. Finally, it is agreed that due to the abnormal and non-recurring nature of these costs that the costs will not be a factor in developing forecasted or final indirect expense...
Advance Agreement
Procedures for Charging Costs Related to Workforce Restructuring

DURATION

This Agreement is effective from February 8, 2011 through the duration of the base period of the contract (Contract DE-AC27-10RV15051) on January 2, 2012.

ACRONYMS

ATL........................................ Advanced Technologies & Laboratories International, Inc.
FDO................................................................. Fee Determination Official
ORP................................................................. Office of River Protection
PBI................................................................. Performance Based Incentive
PEB................................................................. Performance Evaluation Board
PEMP......................................................... Performance Evaluation and Measurement Plan
PEM................................................................. Performance Evaluation Monitor
SEA................................................................. Special Emphasis Area

DEFINITIONS

Award Fee: The subjective fee component of Performance Fee.

Expected Performance Level: Meets agreed upon requirements and performance objectives.

Fee Determination Official (FDO): The final authority in determination of fee awarded to ATL.

Office of River Protection (ORP): ORP is a field office under the Office of Environmental Management headquarters organization.

Performance Evaluation Board (PEB): For the purpose of this PEMP, designated ORP managers are chartered with recommending ATL earned fee to the FDO.

Performance Evaluation and Measurement Plan (PEMP): A plan that defines an approach in evaluating, documenting, and providing performance fee against specified Performance Based Incentives and Award Fee Incentives.

Performance Fee: That portion of the total available fee which is tied exclusively to the contractor’s performance of the contract. The performance fee amount will consist of an incentive fee component for objective performance requirements and an award fee component for subjective performance requirements, or both.

Performance Based Incentive (PBI): A performance incentive represents a reward or consequences that may be employed to motivate a contractor to achieve baseline or higher levels of performance of a requirement. In most instances, the incentive represents an amount of fee tied to the accomplishment of a performance objective.

Performance Measure: The quantitative method for characterizing performance.
Performance Evaluation Monitor (PEM): Designated by the Performance Evaluation Board as responsible individuals monitoring and evaluating the contractor’s performance.

Performance Objective: A statement of desired results from an organization or activity.

Provisional Payment of Fee: Any payments paid on a provisional basis may be reclaimed.

Special Emphasis Area (SEA): An area that is extremely important to ORP.

A. INTRODUCTION:

This Performance Evaluation and Measurement Plan (PEMP) defines the Office of River Protection’s (ORP) approach in evaluating, documenting, and providing performance fee to Advanced Technologies & Laboratories International, Inc. (ATL), in the execution of requirements defined in Contract DE-AC27-10RV15051. This PEMP is for January 1, 2015, through April 2, 2015, that includes a contract Extension Base Period. This PEMP may also cover the Extension Option Periods I through III if exercised. These extended performance periods are as follows:

Extension Base Period: January 1 through April 2, 2015
Extension Option Period I: April 3, 2015 – May 2, 2015
Extension Option Period II: May 3, 2015 – June 2, 2015
Extension Option Period III: June 3, 2015 – July 2, 2015

1. PEMP Objectives

   a. Provide ORP with a mechanism to achieve its highest priority objectives;

   b. Provide incentive to ATL to accomplish ORP’s management and program objectives through the establishment of critical performance objectives and measures;

   c. Reward ATL with fee commensurate with the achievement of the specific ORP performance requirements;

   d. Create an administratively efficient process to assess ATL performance;

   e. Provide a fair and reasonable basis for determining the amount of fee earned; and

   f. Create a process that ensures ATL work efforts are executed in a manner that provides high value and high quality deliverables to ORP.

2. Fee Concept

Performance-based management contracting principles emphasize results-oriented work statements, and performance objectives and measures to incentivize contractors to achieve excellent performance. ORP implements performance-based management contracting
DOE OFFICE OF RIVER PROTECTION PERFORMANCE EVALUATION AND MEASUREMENT PLAN
ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. – CONTRACT DE-AC27-10RV15051

principles through processes associated with Budget Formulation, Budget Execution, and Performance Evaluation.

ATL is responsible for performing the Analytical Services function of receiving, handling, analyzing, storing and report on samples obtained from Hanford contractors. These functions are performed at the 222-S Laboratory complex located in the 200 West Area of Hanford. These services support cleanup and closure goals of all Hanford projects. This work is performed using facilities and infrastructure which are owned by DOE and maintained by DOE’s Tank Operations Contractor (TOC). Because of the nature of this work, ORP utilizes performance fee to incentivize and reward ATL for performance. Performance fee consists of two components: an incentive fee component which provides management focus and emphasis on ORP’s critical few program objectives and an award fee component which provides management focus on all other aspects of ATL’s performance such as overall program, current importance to the overall performance of the contract, their potential for being problem areas, and/or current degree of concern for performance.

a. Performance Based Incentive (PBI)

The PBI performance measures and fee measures are delineated in Attachment 1 of this PEMP. Emphasis will be placed on development of objective incentives based on definition of the desired outcome (the “what”) and expect the contractor to compliantly and safely determine “how” the work is performed to achieve the desired outcome within the established funding constraints. These incentives are identified as PBIs and typically carry more performance risk and higher fee earning opportunities.

b. Award Fee Special Emphasis Area (SEA) Incentives

The SEA performance objectives and measures are delineated in Attachment 1 of the PEMP. In certain instances, the contractor must provide support and/or deliverables that are required to accomplish the project objectives but are not objectively measurable in all cases. These efforts are therefore measured subjectively under incentives identified as SEAs and typically carry reduced performance risk and moderate fee earning opportunities and the FDO may use discretionary factors in determining fee. Consideration will also be given to complete and accurate technical information/products delivered in mutually agreed time frames that meet all applicable codes, standards, rules, regulations and orders.

B. REFERENCES. ORP’s Contract with ATL for Analytical Services; Contract DE-AC27-10RV15051.

C. ROLES AND RESPONSIBILITIES. The effectiveness of this PEMP requires the establishment of a close working relationship between ORP, and ATL because all entities are responsible for successful implementation of the plan and successful completion of ORP’s significant management and program objectives. The roles and responsibilities of the key personnel are as follows:

Page 5 of 19

J - 132
1. **Fee Determination Official:**

   The FDO is the ORP Manager. The FDO will: 1) appoint the PEB Chair; 2) review the recommendation of the PEB, consider all pertinent data, determine the amount of Award Fee earned during each evaluation period and issue the determination in accordance with B.4 Final Fee Determination; 3) notify the Contractor of performance strengths, areas for improvement, and future expectations; 4) issue and approve the PEM on an annual basis in accordance with Section B.4 of the Contract as well as any significant changes thereto; 5) ensure that the Award Fee and Contract Incentives process is managed consistent with applicable acquisition regulations, and 6) ensure that the Award Fee process meets the overall LAS&T business objectives.

2. **Performance Evaluation Board:**

   - Tank Farms Project Assistant Manager, Chair
   - Technical and Regulatory Support Assistant Manager
   - LAS&T Performance Evaluation Program Manager
   - LAS&T Contracting Officer

   The PEB reviews the PEM evaluations of Contractor performance, considers the Contractor’s self-assessment if submitted, considers all information from pertinent sources, prepares draft and final performance reports, and arrives at an earned award fee recommendation to be presented to the FDO. The PEB may also recommend changes to the PEM.

3. **Performance Evaluation Board Chair:**

   The Chair may assign or reassign PEM at any time without advance notice to the Contractor. The Chair will: 1) review the performance monitors’ evaluations and consider the Contractor’s self-assessment; 2) analyze the Contractor’s performance against the criteria set forth in the PEM; 3) provide periodic interim performance feedback to the Contractor via the CO; 4) recommend any changes to the PEM and obtain the FDO’s concurrence on the recommended fee determination.

4. **LAS&T Performance Evaluation Program Manager:**

   The Performance Evaluation Program Manager is responsible for coordinating the administrative actions required by the PEMs, the PEB and the FDO, including: 1) receipt, processing, and distribution of evaluation reports from all required sources; 2) scheduling and assisting with internal evaluation milestones such as briefings; 3) prepare the fee determination recommendation report documenting the recommendation on the award fee; and 4) accomplishing other actions required to ensure the smooth operation of the award fee process.
5. **Performance Evaluation Monitors:**

PEMs may be drawn as needed from the following positions or others as deemed necessary by the PEB Chair:

- Director, Contracts & Property Management
- Director, Tank Farm Programs Division
- Director, Environmental Compliance Division
- Quality Assurance Team Lead
- LAS&T Contract Specialist
- ORP Organizational Property Management Officer
- Tank Farms Project Controls Officer
- LAS&T Program Manager

The PEMs will: 1) monitor, evaluate, and assess Contractor performance in their assigned areas; 2) periodically prepare a Contractor Performance Monitor Report (CPMR) for the PEB; 3) recommend any needed changes to the PEMP for consideration by the PEB and FDO; and 4) maintain a performance dialogue with ATL Performance Measure owners throughout the evaluation period.

### D. METHOD FOR DETERMINING PERFORMANCE FEE

<tr>
<td>FDO determination of fee</td>
<td>Approximately 70 calendar days after completion of Award Fee Period</td>
</tr>
</tbody>
</table>

1. **Communication with ATL during the Evaluation Period**

One important consideration for evaluation will be discussions between the PEM and their ATL counterpart. It is a management expectation that PEMs meet with their ATL counterpart at least monthly to review, discuss, and provide interface on ATL’s performance against the performance-based and award fee incentives and overall contract performance.
Regular communication with ATL at the PEM level will contribute to the success of the fee process. PEM should discuss performance which may not currently meet performance objectives and measures, and thereby keep ATL informed as to achievements and deficiencies that may appear in the final evaluation for the period. ORP established a Monthly Project Review that provides interface between ORP and ATL.

2. **ATL Self Assessment**

ATL shall provide the ORP Contracting Officer and the ORP LAS&T Performance Evaluation Program Manager with an electronic copy of the ATL self-assessment within ten (10) working days upon completion of the performance evaluation period.

ATL shall identify issues potentially affecting the completion of individual PBIs and SEAs and the overall success of the program, and actions taken or recommended to resolve those issues. ATL’s self-assessment shall propose and justify the amount of performance based incentive and award fee earned, and include a discussion of fee reductions warranted by any failure to meet performance expectation. In the event the contractor self-discloses a situation that falls within the support of a special emphasis area, and appropriately self-corrects the situation in a timely manner, fee reduction may be waived by the CO. The timeliness and effectiveness of the contractor’s corrective action may also mitigate fee reductions for deficiencies identified by ORP or other regulatory entities.

3. **ORP Assessment**

ORP Performance Monitors shall prepare and submit to the ORP LAS&T Performance Evaluation Program Manager, an independent assessment of ATL’s performance within twenty (20) calendar days after the end of an award fee evaluation period. The ORP PEM shall consider ATL’s input with respect to completing the PBI and SEA performance criteria and with respect to the quality. Where significant disagreement exists between ATL’s self-assessment and ORP’s assessment, the responsible ORP PEM shall raise such disagreements to the PEB for resolution. ATL may be requested to attend a Board meeting to assure their view is understood.

The ORP LAS&T Performance Evaluation Program Manager will consolidate ORP Performance Monitor Evaluation Reports and submit a written evaluation report to the PEB members for approval.

4. **Performance Evaluation Process**

a. Within ten (10) working days upon completion of the end of an award evaluation period, ATL shall provide the ORP Contracting Officer and the ORP LAS&T Performance Evaluation Program Manager with an electronic copy of the ATL self-assessment. The self-assessment provided shall provide an assessment of their performance in the completion of a PBI and award fee performance objectives and
measures. The ORP LAS&T Performance Evaluation Program Manager is responsible for distribution of the ATL self-assessment to ORP PEMs.

b. Within twenty (20) calendar days upon the end of an award fee evaluation period, ORP PEMs will prepare and submit an independent assessment of ATL’s performance, with respect to quality and schedule, against the performance objectives and measures to the ORP LAS&T Performance Evaluation Program Manager for consolidation. The ORP PEM shall consider ATL’s input with respect to payments of fee. Where significant disagreement exists between ATL’s self-assessment and ORP’s assessment, the responsible PEM shall raise such disagreements to the PEB for resolution. ATL may be requested to attend a Board meeting to assure their view is understood.

The ORP assessment must be submitted on the Performance Monitor Evaluation Report form, Attachment 2 of the Plan, and will only be accepted by the ORP Procurement Division upon the approval of the ORP PEM.

c. Within approximately thirty (30) calendar days after the end of an award fee evaluation period, the ORP LAS&T Performance Evaluation Program Manager will consolidate Performance Monitor Evaluation Reports and submit to the PEB members for review.

d. Within approximately sixty (60) calendar days after the end of an award fee evaluation period, the PEB will review, validate, and prepare an evaluation report and submit a fee recommendation to the FDO.

e. Within seventy (70) calendar days after the end of an award fee evaluation period or 60 calendar days after receipt of contractor’s self-assessment for award fee (whichever is later), the FDO will make a determination of the fee earned.

5. Evaluation and Discussion Documentation

Where meetings or discussions are held by the PEM (with ATL, HQ, or others) that significantly impact award fee evaluations, it is necessary that appropriate documentation be created. This documentation can be in the form of signed and dated notes, minutes, or correspondence. Copies of the PEM documentation should be maintained by the PEM in support of the Performance Evaluation Report.

Rationale for fee payments will be documented by the PEB and the FDO. The final PEB Fee Recommendation and FDO Fee Determination reports along with supporting rationale will be maintained by the ORP Contracts and Property Management Division in the official contract file.
E. PEB INVOLVEMENT IN FINAL EVALUATIONS

The PEB is responsible for reviewing the Performance Evaluation Reports and developing a Fee Recommendation Report to the FDO. The Chair of the PEB will provide updates and feedback to the FDO prior to receiving the PEB’s final signed fee recommendation report.

F. FDO RESPONSIBILITIES IN FINAL EVALUATIONS

Based on the FDO’s personal knowledge, the information contained in ATL’s self-assessment, the PEB Fee Recommendation Report, and/or other information relating to ATL’s performance of the contract requirements, the FDO develops a determination on the evaluation and award fee.

G. METHOD FOR CHANGING PLAN COVERAGE

Proposed changes to the PEMP are approved by the FDO. They may be initiated by ORP or ATL. Proposed changes to the PEMP must be initiated on the official PEMP Change Form (Attachment 3). The respective PEM will review and concur on proposed changes prior to any changes being made to the PEMP.

</tr>
<tr>
<td><strong>Total PBI Fee Available</strong></td>
<td><strong>70%</strong></td>
<td><strong>$156,752.69</strong></td>
<td><strong>$52,958.44</strong></td>
<td><strong>$53,705.12</strong></td>
<td><strong>$54,327.25</strong></td>
</tr>
</tbody>
</table>

ORP will evaluate performance in each of the PBI areas using the Performance Measures and Targets for each the PBIs. The Performance Targets are considered necessary to achieve the Performance Objective stated in the PBI. The evaluation will assign the percent of available fee earned to each PBI based on the contractor’s performance against the Performance Targets. The percent of available fee earned will match the performance target assigned to each PBI.

### PBI -1

**On-Time Delivery**

<table>
<thead>
<tr>
<th>Due Date: 4/2/2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Value (%): 25%</td>
</tr>
<tr>
<td>Value ($) : $55,625.96</td>
</tr>
</tbody>
</table>

**Performance Objective**: ATL will provide at a minimum 85% on-time delivery of analytical deliverables during this evaluation period.

**Performance Measures**: This PBI will be measured by dividing the number of on-time analytical deliverables by the total number of analytical deliverables reported during this evaluation period.

**Performance Target**: Total available fee will be paid as follows:

- On-Time Delivery ≥ 95% = 100% of Fee
- On-Time Delivery ≤ 90% < 95% = 90% of Fee
- On-Time Delivery ≤ 85% < 90% = 80% of Fee
- On-Time Delivery < 85% = 0% of Fee

### PBI -2

**Evaluations/Proficiency Tests**

<table>
<thead>
<tr>
<th>Due Date: 4/2/2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Value (%) : 20%</td>
</tr>
<tr>
<td>Value ($) : $44,500.77</td>
</tr>
</tbody>
</table>

**Performance Objective**: ATL shall maintain an overall average score of at least 85% for annual proficiency tests performed during the evaluation period.

**Performance Measure**: This PBI will be measured by the percent of acceptable performance evaluation results of the total number of performance evaluation analyses performed.

**Performance Target**: Total available fee will be paid as follows:

- Overall Average Score ≥ 95% = 100% of Fee
- Overall Average Score ≥ 90% < 95% = 90% of Fee
- Overall Average Score ≥ 85% < 90% = 80% of Fee
- Overall Average Score < 85% = 0% of Fee

<table>
<thead>
<tr>
<th>PBI -3</th>
<th>Maintain Holding Times</th>
<th>Due Date: 4/2/2015</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Value (%): 25%</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Value ($) : $ 55,625.96</td>
<td></td>
</tr>
</tbody>
</table>

**Performance Objective**
ATL will maintain holding time (i.e., the time that a sample remains viable for analysis) performance at greater than or equal to 85% during this evaluation period.

**Performance Measure**
This PBI will be measured by dividing the number of holding times met by the total number of analytical tests with holding times, for analyses performed by the laboratory during this evaluation period.

**Performance Target**
Total available fee will be paid as follows:

- Holding Time Met % ≥ 95% = 100% of Fee
- Holding Time Met % ≥ 90% < 95% = 90% of Fee
- Holding Time Met % ≥ 85% < 90% = 80% of Fee
- Holding Time Met % < 85% = 0% of Fee
AWARD FEE SPECIAL EMPHASIS AREAS (SEA)

</tr>
</tbody>
</table>

ORP will evaluate and measure performance in each of the SEAs 1 through 3, using the Performance Targets for each SEA. The Performance Targets are considered necessary to achieve the Performance Objective stated in the SEA. The evaluation will assign a Numerical Rating of 0 to 100, and corresponding Adjectival Rating, to each SEA. The Percent of Available Fee Earned awarded to that SEA will match the Numerical Rating (e.g., a Numerical Rating of 71 is awarded 71% for that Element). The Numerical and Adjectival Ratings will be based upon ORP’s evaluation of the extent to which Contractor performance on that SEA favorably contributed toward achieving the desired outcome. See table on following page for definitions of adjectival ratings.

Each SEA has indicators and guidelines that are important performance considerations; however, ORP may consider any pertinent performance information related to that SEA.

**Performance Objective**: ATL will demonstrate sound Environmental Stewardship and Compliance

**Performance Target**: ATL’s performance will be measured utilizing the minimum the following award fee evaluation criteria:

- ATL actions fully support the 222-S Lab Steward in maintaining applicable environmental permits and safety authorizations
- Early identification of issues and concerns through a proactive assessment and evaluation program
- Number and seriousness of any non-compliances, infractions, or violations and the timeliness and quality of related reporting and responses.
- Properly manage chemicals and support the 222-S Steward’s implementation of waste minimization and pollution prevention practices

PERFORMANCE MONITOR EVALUATION REPORT FORM

I. EVALUATION PERIOD: ________________________________

II. DOE PERFORMANCE MONITOR:

Signature: ____________________________ Date: ____________

III. PERFORMANCE BASED INCENTIVES (PBI) EVALUATIONS:

PBI # _____ Recommended Fee Earned _____

Discussion:

IV. EVALUATION OF AWARD FEE SPECIAL EMPHASIS AREAS:

SEA # _____ Adjective Rating ____________

Discussion:

Discussion summaries should describe the method used to evaluate timeliness, quality and completion of performance objectives/ measures; clarifying remarks regarding the timeliness and sufficiency of the products/activities against defined performance objectives/ measures; identification of significant deviations; rationale for recommended fee payment/rating (if necessary, provide computations); and mitigating factors, if any, that were considered in determining the amount of fee.

Areas to consider:

1. Contractor monthly performance indicator results including positive or negative trends.
2. Management reviews and reports including the new monthly reviews.
4. ORP independent and program assessments.
5. Issues and corrective action of issues

REAL ID

* Note:
As of July 31, 2014, Montana and Kentucky have been removed from the list of states considered "subject to enforcement" per e-mail direction from DHS. Jan 7, 2014

Does it affect me?

Driver's licenses and identification issued by states & territories subject to enforcement cannot be used to enter restricted Federal facilities and nuclear plants after July 21, 2014.

In order to enter a federal facility after July 21, you will need to present another form of acceptable ID.

The list of jurisdictions subject to enforcement changes over time. For the most recent list, please visit http://www.dhs.gov/secure-drivers-licenses#1.

Department of Homeland Security
Office of Policy
www.dhs.gov/secure-drivers-licenses
ACCEPTABLE FORMS OF IDENTIFICATION (EXTRACTED FROM FIPS 201-2)

During identity proofing, the applicant shall be required to provide two forms of identity source documents in original form. The identity source documents shall be bound to that applicant and shall be neither expired nor cancelled. If the two identity source documents bear different names, evidence of a formal name change shall be provided. The primary identity source document shall be one of the following forms of identification:

- a U.S. Passport or a U.S. Passport Card;
- a Permanent Resident Card or an Alien Registration Receipt Card (Form I-551);
- a foreign passport;
- an Employment Authorization Document that contains a photograph (Form I-766);
- a Driver's license or an ID card issued by a state or possession of the United States provided it contains a photograph;
- a U.S. Military ID card;
- a U.S. Military dependent's ID card; or
- a PIV Card.

The secondary identity source document may be from the list above, but cannot be of the same type as the primary identity source document. The secondary identity source document may also be one of the following:

- a U.S. Social Security Card issued by the Social Security Administration;
- an original or certified copy of a birth certificate issued by a state, county, municipal authority, possession, or outlying possession of the United States bearing an official seal;
- an ID card issued by a federal, state, or local government agency or entity, provided it contains a photograph;
- a voter's registration card;
- a U.S. Coast Guard Merchant Mariner Card;
- a Certificate of U.S. Citizenship (Form N-560 or N-561);
- a Certificate of Naturalization (Form N-550 or N-570);
- a U.S. Citizen ID Card (Form I-197);
- an Identification Card for Use of Resident Citizen in the United States (Form I-179);
- a Certification of Birth Abroad or Certification of Report of Birth issued by the Department of State (Form FS-545 or Form DS-1350);
- a Temporary Resident Card (Form I-688);
- an Employment Authorization Card (Form I-688A);
- a Reentry Permit (Form I-327);
- a Refugee Travel Document (Form I-571);
- an Employment authorization document issued by Department of Homeland Security (DHS);
- an Employment Authorization Document issued by DHS with photograph (Form I-688B);
- a driver's license issued by a Canadian government entity; or
- a Native American tribal document.

*Departments and agencies may choose to accept only a subset of the identity source documents listed in this section. For example, in cases where identity proofing for PIV Card issuance is performed prior to verification of employment authorization, departments and agencies may choose to require the applicant to provide identity source documents that satisfy the requirements of Form I-9, Employment Eligibility Verification, in addition to the requirements specified in this section. It is recommended that departments and agencies perform electronic verification of identity source documents, where possible.

*For example, if the primary source document is a foreign passport (e.g., Italy), the secondary source document should not be another foreign passport (e.g., France).
