MSA Expectations for Employee Involvement

This Level 1 Policy applies to Mission Support Alliance and MSA subcontractors performing Mission Support Contractor work scope.

MSA recognizes that our employees play a vital role in creating and maintaining an environment where involvement, teamwork, and continuous improvement flourish. Our projects and support organizations will encourage active and meaningful employee involvement at all levels of business operations. Involvement, such as that exercised within the framework of the Voluntary Protection Program, will remain an essential element in the planning and execution of work for long-term success of our Mission Assurance goals and objectives.

MSA and its subcontractors demonstrate commitment to this policy by providing adequate authority and resources for employees to carry out this role.

This document partially implements the ISMS Guiding Principle #8, Worker Involvement.
