

Hello and welcome to Fluor Hanford's Contractor Registration Information.

As a vendor, it is your responsibility to abide by Fluor Hanford's supplier requirements. It is important that you understand and comply with all business laws and licensing requirements, complete the vendor registration form, a W-9 (if applicable) and provide accurate information and updates to your vendor information when necessary. Failure to provide accurate information may result in missed opportunities, delayed payments and/or exclusion from the Fluor Hanford vendor database.

Fluor Hanford retains a list of contractors with whom we have active contracts and purchase orders in our vendor database. Each vendor in the database is assigned an identification number which they may use to facilitate communication about changes and corrections to their information.

The vendor registration form must be completed and filed prior to an award. The form must be properly filled out with the complete legal name and address of the business, the correct tax identification number must be noted, as well as the complete mailing, shipping and remit to address. It is important that the person submitting the form understands the implications of registration errors and can correctly complete the form.
