

Unit-closure.html

Regardless of other documentation, or the absence of same, Ecology's approval of the closure documentation for any particular TSD unit in the Hanford Facility RCRA Permit (WA7890008967) signifies Ecology's acceptance of the 'current' Part A Form 3 Permit Application. Note that often Ecology's closure approval documentation includes instructions to enter the words 'CLOSED, date ' onto the first page of the current Form 3 and resubmit the first page, and to post this first page with the 'CLOSED, date' documentation to the Internet/Part A Manual (DOE/RL-88-21). Likewise, procedural closures by Ecology for any particular TSD unit will show a 'CLOSED, date' on the first page of the Form 3 to indicate Ecology's approval of the Form 3 and the TSD unit's closure.
