

A single second

It takes a *minute* to write a safety rule.

It takes an *hour* to hold a safety meeting.

It takes a *week* to plan a safety program.

It takes a *month* to put it into operation.

It takes a *year* to win a safety award.

It takes a *lifetime* to make a safe worker.

But it takes only a *second* to destroy it all!

So, work safely at all times!

Thanks to Hank Besel, a health physicist with Fluor Hanford, for reviving this safety slogan.

“In almost 28 years at Hanford this is the best safety slogan I have seen,” Besel said.
