

# Just-In-Time Report

## Rescinded NIOSH approval of ISD Model 5000 Emergency Escape Respirators

---

January 24, 2007

2007-RL-HNF-0002

Tracking No: 389

**Site/Facility:** Hanford/All

**Event:** NIOSH has rescinded their certificate of approval of International Safety Devices (ISD) Model 5000 Air Capsule escape respirators.

**Important Points:** Fluor Hanford will discontinue all use of this product effective February 8, 2007. At present only FFTF is known to be using this product but any facility may have them.

**Contributors:** NA

### Other Important Considerations - Prevent Events

Managers/Supervisors	Workers
<p>Implement job specific compensatory measures to mitigate hazard exposures where these escape units were required.</p> <p>Verify that there are none of these units in use or remove them from service.</p> <p>After February 8, 2007 all ISD Model 5000 units must be tagged out of use.</p>	<p>Check your respirator model numbers. If found, report to your immediate supervisor.</p> <p>Do not use the ISD Model 5000 Air Capsule escape respirators after February 8th.</p>
