Subject: UPDATE on COVID-19 Vaccination Information

THE HANFORD SITE

March 31, 2021

TO: All Hanford Site Employees

SUBJECT: UPDATE on COVID-19 Vaccination Information

****PLEASE SHARE THIS MESSAGE WITH THOSE WHO ARE NOT ON COMPUTERS****

HPMC Occupational Medical Services has received 300 doses of the Moderna COVID-19 vaccine, which are being offered to eligible Hanford workers who have not already received the first dose from another source. You can determine eligibility by checking the [Vaccinate WA: COVID-19 Vaccine Availability](#) page.

As of March 31, the Washington State Department of Health no longer requires Phase Finder to verify vaccination eligibility. Washington recognizes the importance of getting as many vulnerable community members vaccinated as fast as possible, and removing Phase Finder will help speed up the process and reduce barriers for eligible individuals.

If you are eligible to receive the COVID-19 vaccine now, use the [Vaccine Scheduling Tool](#) to make your vaccination appointment at HPMC. If vaccines are unavailable at HPMC, you do not need to wait to get your vaccine from HPMC; use the vaccine locator at [vaccinelocator.doh.wa.gov](#). It is here that people can view who is currently eligible for the vaccine and schedule an appointment. Vaccinate WA is available in several languages, including [Spanish](#).

HPMC has an informational briefing on the Moderna vaccine available here: [COVID-19 Resources and Updates](#). For additional questions, please visit the [Washington State DOH COVID-19 Vaccine webpage](#).

Thank you for your continued efforts to prevent the spread of COVID-19, while safely advancing the important cleanup mission at Hanford. We will continue to keep you informed as information becomes available.
