Subject: COVID-19 Vaccine Appointments Available

THE HANFORD SITE

April 5, 2021

TO: All Hanford Site Employees

SUBJECT: COVID-19 Vaccine Appointments Available

****PLEASE SHARE THIS MESSAGE WITH THOSE WHO ARE NOT ON COMPUTERS****

HPMC Occupational Medical Services has appointments available for the Moderna COVID-19 vaccine. The vaccine is being offered to eligible Hanford workers who have not already received the first dose from another source. You can determine eligibility by checking the [Vaccinate WA: COVID-19 Vaccine Availability](#) webpage.

If you are eligible to receive the COVID-19 vaccine now, use the [Vaccine Scheduling Tool](#) to make your vaccination appointment at HPMC (see exceptions below). When you make an appointment for your first dose, the Vaccine Scheduling Tool will automatically make you an appointment for your second dose.

If you received a first Moderna vaccine dose in the community and are due for your second dose, you can use the Vaccine Scheduling Tool to sign up for the standby list. If extra vaccine is available, HPMC will call those on standby to report to the clinic within 30 minutes.

It is important that you arrive on time for your scheduled vaccination, as space is limited and you will need to be monitored for 15 minutes following your vaccination.

HPMC has an informational briefing on the Moderna vaccine available here: [COVID-19 Resources and Updates](#). For additional questions, please visit the [Washington State DOH COVID-19 Vaccine webpage](#).

We appreciate your continued efforts to prevent the spread of COVID-19, while safely advancing the important cleanup mission at Hanford.

NOTE: HPMC **cannot** provide the vaccine to anyone who has ever experienced a severe allergic reaction that required epinephrine, is pregnant, about to become pregnant, or breastfeeding. If you fall into one of these categories, please see your personal physician to receive the vaccine.
