Subject: Hanford COVID-19 Safety Guidelines

THE HANFORD SITE

June 29, 2021

TO: All Hanford Site Employees

SUBJECT: Hanford COVID-19 Safety Guidelines

****PLEASE SHARE THIS MESSAGE WITH THOSE WHO ARE NOT ON COMPUTERS****

Tomorrow, we expect the State of Washington to announce a broader reopening that allows all privately owned businesses and organizations to return to usual occupancy capacities and operations, with the exception of some large, indoor events.

While a positive indication that the pandemic is continuing to recede, the Hanford site will continue to follow the COVID-19 safety guidelines issued in the Hanford COVID-19 Workforce Safety Plan and the associated implementing procedures and directives on 11 June. At this time, the Hanford guidelines include the use of masks while indoors and continued physical distancing for unvaccinated individuals. Additionally, the site will remain in the current telework posture while continuing to plan for a future posture transition to return our teammates who are teleworking to on-site work locations.

We will continue to evaluate the many factors that have been used to establish and maintain a safe and healthy work environment for every member of our Hanford team throughout the pandemic. In consideration of CDC, federal, state, and local guidelines and when conditions support, the Hanford leadership team will provide advanced notification of any changes in site posture and execute a structured and methodical transition consistent with each previous transition since March 2020. As always, I thank you for your focus on the safety and health of yourselves, your families, your teammates, and our community as we continue to work together to progress our important cleanup mission at the Hanford site.

Brian T. Vance
