**Subject:** Update on Vaccines Available at HPMC OMS Clinic

## THE HANFORD SITE

---

March 21, 2022

**TO:** All Hanford Site Employees  
**FROM:** Hiram S. Whitmer, President and Program Manager, HPMC OMS  
**SUBJECT:** Update on Vaccines Available at HPMC OMS Clinic

**\*\*PLEASE SHARE THIS MESSAGE WITH THOSE WHO ARE NOT ON COMPUTERS\*\***

Since December 2020, HPMC Occupational Medical Services has made the COVID-19 vaccine available to the Hanford Site. In an effort to provide the Site with multiple options and maximum access to the vaccine, HPMC OMS began offering all three (Pfizer, Moderna and Johnson & Johnson) COVID-19 vaccines in 2021.

Due to a decreased demand for COVID-19 vaccinations, HPMC OMS will stop offering the Pfizer vaccine after March 24 and stop offering the Johnson & Johnson vaccine after July 7. HPMC OMS will continue to offer the Moderna vaccine until further notice as the Moderna vaccine is approved by the FDA and endorsed by the CDC for use as a booster regardless of the initial series received. HPMC OMS will provide relevant updates as they are available.

An informational briefing on the Moderna vaccine is available here: [COVID-19 Resources and Updates](#).

For additional questions, please contact your [company COVID-19 Point of Contact](#) and visit the [Washington State Department of Health COVID-19 Vaccine webpage](#).

For those seeking vaccinations, HPMC OMS will continue to offer vaccination appointments on Thursdays. To schedule an appointment, please click [here](#) or call 509-376-8378, option 5. You can also find a vaccine in the community at [Vaccinate WA: COVID-19 Vaccine Availability](#).
