Subject: CDC Recommends Second Booster for Those Over 50

THE HANFORD SITE

April 4, 2022

TO: All Hanford Site Employees
FROM: Dr. Karen Phillips, Hanford Site Occupational Medical Director
SUBJECT: CDC Recommends Second Booster for Those Over 50

****PLEASE SHARE THIS MESSAGE WITH THOSE WHO ARE NOT ON COMPUTERS****

Effective March 29, the Centers for Disease Control and Prevention (CDC) recommends a second booster of a Moderna or Pfizer COVID-19 vaccine at least four months after the last booster for individuals over 50 years of age to help increase protection against COVID-19.

The CDC continues to recommend that all eligible adults, adolescents and children five and older be up to date on their COVID-19 vaccinations, which includes receiving an initial booster five months after the primary series.

HPMC Occupational Medical Services will continue to offer vaccination appointments on Thursdays. To schedule an appointment, please click [here](#) or call (509) 376-8378 and choose option 5.

If you have questions or concerns regarding your unique medical needs, please talk with your primary care physician.
