E. Section J, Attachment J-1, *Table of River Corridor Closure Contract Work Scope*, is replaced in its entirety with the revised Attachment J-1. All changes to the work scope were negotiated for each change order identified in the table contained in Paragraph B above as well as adding the necessary changes to incorporate SPIF 1A. Detailed changes are included in the corresponding contract modification for each of the change orders.

F. CONTRACTOR RELEASE: The revisions to the Contract agreed to herein are provided in consideration for, and as complete equitable adjustment for, all Contractor's proposals and submissions (formal and/or informal) related to the change orders listed in Paragraph B of this modification. The Contractor hereby releases the Government from any all liability under this contract for equitable adjustments attributable to such facts or circumstances giving rise to the Contractor's proposals and submissions. An individual release statement is also included within the individual contract modification for each change order identified in Paragraph B.

All other contract terms and conditions remain unchanged.

Scope 2% complete. Deletion for Overburden Removal. Changes required in planning and excavation activities due to PAAA corrective action plan. Unexpected, non-matrixed alpha-contaminated media was discovered December 2004 during remedial action operations at the 618-2 and 618-3 Burial Grounds resulting in changes to work execution practices for 300 Area Burial Grounds. Material difference for implementation of operational changes resulting from lessons learned and PAAA corrective actions developed after the River Corridor Closure RFP was issued. Any site that was at least in the planning stage by August 27, 2005, with known differences in planning and execution, will be a material difference. It is acknowledged that Cat 3 is a material difference; however, really don't expect much of an operational change from other burial ground work since that is a primary basis for RA vs ORR for facility startup (Related to Additions Item MA92). RL will revisit for decision - 9/13/05. RL request clarification. Does the bid proposal exclude TRU waste in tanks? Is the 24% of total scope calculated correctly from the bid proposal? (D4 Response - Bid Proposal excludes TRU Waste in Tanks. 27% of Bid Proposal scope is completed. The new scope exceeds the completed scope and final estimate was prepared as part of the baseline development). RL accepted on 9/19/05 MD017 / MA007		In SPIF
