

Draft Advice

- Engineering controls to prevent vapors
- Look at past engineering controls from 2000's (early)
- Determine if advice or a letter should go forward in June
- Include Dirk's language (points)— revise as necessary

Page 1

EIC Topics

- Guidance letter on budget priorities → no focus on safety
 - Include statement on priority of safety (should be a top priority)
- Open air demolition PFP
- Track tank vapor issue
 - Respond to external team review report
 - Protocol HPMC (checklist) for workers

Page 2

EIC Topics (Continued)

- How news is reported (both good and bad; for both public and workers)
 - PIC lead
- Emergency Response
 - Video (Hanford Communities) & communication plan
- Beryllium—
 - Program update
 - Employee statistics
