

Leadership Workshop FY17 Topic Ideas

- Consider Consent Decree milestones and supporting activities
 - Major components
 - Infrastructure
 - Permitting processes
 - Funding
 - Critical decision pathways
 - Consider: what is different and why?
- Understanding timeline/list for different pieces
- Use of white papers vs. advice
 - Technical content
 - Board composition, turnover
 - Headquarters' goals
- Communication
 - Bringing along new Board members and general public - roadmap
- Background/fundamentals, getting up to speed
- DFLAW process
 - Permits
 - Progress on facilities
 - Technical findings, testing
 - Critical Decision process
 - Schedule/sequence of supporting pieces
 - Storage of process waste and products
- Risk-based retrieval, treatment, and closure
 - Any changes from FY16 topic?
 - Soil contamination
 - Performance assessment updates
 - Groundwater
- DST and SST pumping
 - AY-101 and AY-102
 - Investigation on leaks
- WTP technical issue resolution
 - Grand challenges
 - Full scale vessel test
 - Ventilation system
- Tank vapor issues
 - Pending resolution of litigation
- DFHLW
 - Grand challenge progress
- WIPP disposition updates
 - New waste stream acceptance
 - Schedule for Hanford waste

Risk-based Retrieval, Treatment, and Closure

- Define questions to answer for this work plan topic
 - Report/white paper
- Improve goals of less than 360 ft³ of waste based on risk (deployment of technologies, etc.)
- What strategic goals should be considered?
- Issue managers: Bob, Melanie, Dirk
- Issues: site-wide risks (beyond tanks)
 - Federal regulations → requirements for closure
 - Modeling issues
