

# Tank Integrity – Talking Points

## 2016 DST Integrity Assessment Report

- Exclusions, ancillary equipment, deferred use and emergency use only
- AP-102 secondary containment
- DSTs FFU w/ no compliant transfer lines or noncompliant essential components
- Mission end date no longer 2028; HLW-Vit start in 2034
- LAW startup in 2022; cannot defer items to next DSTAR

## Feed Delivery to LAWPS and WTP

- AP farm upgrades – Ecology review and permitting
- Remaining Tank Farms infrastructure – need plan and schedule of upgrades for functionality/feed availability
  - 200W feed sources by 2025
  - Resolution of Group A tanks – potential GRE
