PEMP ORGANIZATION

Fee Determining Official ........................................................................................................................................... Stacy Charboneau, RL Manager

Award Fee Review Board Chairperson ................................................. Joe Franco, Assistant Manager for Mission Support (AMMS)

Award Fee Review Board Members:
   Deputy Program Director ............................................................... Jeff Bird, Deputy AMMS
   Contracting Officer ........................................................................ Tim Corbett, MSC Contracting Officer
   Attorney Staff Member ................................................................... Paul Davis, Attorney
   Financial Management Staff Member .......................................... Steve Einan, Project Controls Officer

Performance Monitors:
   AMMS .............................................................................................. Jeff Bird, Acting AMMS
   Infrastructure and Services ............................................................ Sharee Dickinson, ISD Director
   Site Stewardship ............................................................................ Boyd Hathaway, SSD Director
   Safeguards and Emergency Services/Information Management .................................................................... Corey Low, SEI Director

Mission Support Contract
FY 2015 Performance Evaluation and Measurement Plan

1. INTRODUCTION

This Performance Evaluation and Measurement Plan (PEMP) contains both objective and subjective performance incentives in order to maximize the efficacy of the Mission Support Contract. The completion criteria for objective incentives consist of the successful completion of specified activities. The completion criteria for subjective incentives are focused on the achievement of high-level strategies, outcomes, and envisioned end states. The completion criteria are based on negotiated integrated priority lists (IPLs) and requisite budget levels commensurate with IPL execution and are subject to adjustment based on actual approved 2015 budget levels. Additionally, specific completion criteria for each respective PI have been established that provide the criteria for the successful completion in terms of measurable deliverables and associated constraints (measurable ranges/delivery dates).

2. ALLOCATION OF AVAILABLE FEE

Because the services to be determined under this contract directly support the mission contractors, and because such services are integral to the environmental cleanup mission at Hanford, DOE will heavily weight the assignment of fee toward the following strategic areas of the contract:

a. Effective Site Cleanup - Enable mission contractors to achieve their cleanup mission by providing site utilities, infrastructure, and services at the levels required. The key outcomes include:
   - Enabling site contractors to achieve reduced cost of site cleanup
   - Delivering timely service that supports customer key milestones and regulatory commitments

b. Efficient Site Cleanup - Realize efficiencies by consolidating, integrating, and centralizing sitewide service functions, safety and security programs, and business functions.

c. Safe and Secure Operations - Maintain high standards for safe and secure operations.

d. Site Stewardship - Provide sitewide, integrated stewardship for the Hanford Site.

The objective performance incentives are allocated 70% of the available fee and the remaining 30% is allocated to the subjective performance incentive.

3. RATINGS

Payment of fee is subject to the fee reduction terms of this contract and fee determining official (FDO) approval that the contractor has achieved the stated outcome for the performance incentives and satisfying the specific completion criteria. The criteria listed in Table 3.1, Performance Ratings and Definitions, will be used in the evaluation of both objective and subjective incentives. Furthermore, the evaluation of objective incentives will also include a subjective determination regarding quality, timeliness, cost, and effectiveness.

MSA, through the submission of monthly performance incentive reports, shall identify issues potentially affecting the completion of individual performance incentives and the overall success of the contract, with actions taken or recommended to resolve those issues. In the event MSA self-discloses an issue with regard to an incentive in the PEMP and appropriately self-corrects the situation in a timely manner, fee reduction may be waived or mitigated by the FDO.
### Table 3.1, Performance Incentive Ratings and Definitions

<table>
<thead>
<tr>
<th>Adjectival Rating</th>
<th>Definition</th>
<th>Percentage of Fee Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excellent</td>
<td>Contractor has exceeded almost all of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor’s work is highly professional. Contractor solves problems with very little, if any, Government involvement. Contractor is proactive and takes an aggressive approach in identifying problems and their resolution, including those identified in the risk management process, with a substantial emphasis on performing quality work in a safe manner within cost/schedule requirements. No significant re-work.</td>
<td>91% to 100%</td>
</tr>
<tr>
<td>Very Good</td>
<td>Contractor has exceeded many of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor solves problems with minimal Government involvement. Contractor is usually proactive and demonstrates an aggressive approach in identifying problems and their resolution, including those identified in the risk management process, with an emphasis on performing quality work in a safe manner within cost/schedule requirements. Problems are usually self-identified and resolution is self-initiated. Some limited, low-impact rework within normal expectations.</td>
<td>76% to 90%</td>
</tr>
<tr>
<td>Good</td>
<td>Contractor has exceeded some of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and measured against the award-fee plan for the award-fee evaluation period. Contractor is able to solve basic problems with adequate emphasis on performing quality work in a safe manner within cost/schedule objectives. The rating within this range will be determined by level of necessary Government involvement in problem resolution, including those problems identified in the risk management process, and extent to which the performance problem is self-identified vs. Government-identified. Some re-work required that unfavorably impacted cost and/or schedule.</td>
<td>51% to 75%</td>
</tr>
<tr>
<td>Satisfactory</td>
<td>Contractor has met overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor has some difficulty solving basic problems, and cost, schedule, safety, and technical performance needs improvement to avoid further performance risk. Government involvement in problem resolution, including those problems identified in the risk management process, is necessary. Some rework required that unfavorably impacted cost and/or schedule.</td>
<td>&lt; 50%</td>
</tr>
<tr>
<td>Unsatisfactory</td>
<td>Contractor has failed to meet overall cost, schedule, and technical performance requirements of the contract in the aggregate as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor does not demonstrate an emphasis on performing quality work in a safe manner within cost/schedule objectives. Contractor is unable to solve problems and Government involvement in problem resolution, including those problems identified in the risk management process, is necessary. Excessive rework required that had significant unfavorable impact on cost and/or schedule.</td>
<td>0%</td>
</tr>

</tbody>
</table>
5. PERFORMANCE INCENTIVES

Table 5.1, FY15 Performance Incentives

Fee determination and payment will be made in accordance with the Section B clause entitled Fee Determination and Payment. The completion criteria for objective incentives consist of the successful completion of specified activities. The completion criteria for subjective incentives are focused on the achievement of high-level strategies, outcomes, and envisioned end states. The evaluation of all incentives will include a subjective determination regarding quality, timeliness, cost, and effectiveness.

PERFORMANCE INCENTIVE 3.1

Maintain operational readiness and realize efficiencies through integration, standardization, and consolidation of security systems. 

**Fee** 6%

**Strategic Area 3.0: Safe and Secure Operations**

**Alignment to the Cleanup Mission:** Maintain high standards for safe and secure operations

COMPLETION CRITERION 3.1.2

Complete a review of the Hanford Patrol training program to include the application of the Elite Force training to the protection of special nuclear material from a cost versus benefit perspective and compliance. Ensure the program is aligned with the current site protection strategy and any forthcoming emerging requirements. Identify potential cost-savings initiatives and submit an implementation schedule for DOE approval by 3/31/15. Implement FY15 actions of the approved schedule.

**Fee** 3%

**Due Date** 9/30/15

PERFORMANCE INCENTIVE 4.1

Achieve effective and efficient utilization of Hanford Site through comprehensive and compliant land management.

**Fee** 10%

**Strategic Area 4.0: Site Stewardship**

**Alignment to the Cleanup Mission:** Provide sitewide, integrated stewardship for the Hanford Site.

COMPLETION CRITERION 4.1.1

Perform necessary actions for developing the River Corridor Integrated Land Planning document such as assemble baseline information, perform gap analyses, develop time-phased maps, determine land use decision considerations, develop communications plan, etc., and complete a preliminary draft plan.

**Fee** 7%

**Due Date** 9/30/15

- Support the accomplishment of RL key performance goals.
- Maintain alignment of cost performance with the negotiated estimated costs contained in the contract.
- Work with DOE in a spirit of cooperation during the proposal review and negotiation process, including timely and adequate submission of proposals and requests for additional data, timely counteroffers, and conveying a positive and professional attitude to achieve fair and timely settlement of change order proposals or requests for equitable adjustment, and attaining small business goals.
- Demonstrate operational excellence in business and financial management by fulfilling contractual obligations in a fiscally responsible manner to include, but not limited to, the use of approved purchasing, estimating, property, budget, planning, billing, labor, and accounting systems; and the contractor's management of government property.
- Provide leadership to improve management effectiveness and collaborate and participate proactively with customers.
- Measure overall performance under the contract via the use of a comprehensive performance measurement system.
- Integrate and coordinate all activities required to execute the contract with other Hanford contractors, specifically the timeliness, completeness, and quality of problem identification and corrective action plans.
- Initiate and provide effective participation in business case analyses and other cross-contractor activities leading to optimal utilization of RL resources (facilities, equipment, material and services) across all Hanford contractors. Continue evaluation and improvement of the Contractor Interface Board and other similar or proposed replacement functions.
- Demonstrate operational excellence in safeguards and security, fire and emergency response, and emergency operations/emergency management by fulfilling contractual obligations in a responsive and fiscally responsible manner.
- Perform work safely and in a compliant manner that assures the workers, public, and environment are protected from adverse consequences.
