Subject: Information Request
Importance: High

Ms. Hendrickson,

Per our conversation what we are in need of is the name of who Solicitation 589 -- Development, Design, and Fabrication of an Enhanced Reach Sluicer System (ERSS) was awarded to. Per our conversation on 9-22-2010 a FOIA request was sent to the DOE - ORP via the FOIA email request form online. Having had no response is rather disconcerting and shows a general lack of respect for the public.

The ORP is the only agency on Fed Biz Opps that does not publish their awards as a matter of fact today alone, I received an update from FBO in my inbox from numerous other agencies.

"Your FBO Opportunity Search Agent called: 'Award Notices' has identified the following opportunities that have either been newly posted or modified and match your search criteria."

As you can see these are hardly top secret pieces of information and as a national publication that has followed the requested protocols by your agency I would expect a more professional response from your agency.

We look forward to your prompt response on this matter.
