--Contact information--

Name: Sara Lovtang  
Organization: Oregon Department of Energy  
Address:  
625 Marion Street, NE  
Salem, OR 97301-3737  
Fax number:  
Phone number: 971-[REDACTED]  
Email address: sara.lovtang@oregon.gov

--Reasonably Describe Records--

Description: Lidar-derived bare-earth data for the Hanford site in Benton county, Washington. Lidar-derived bare-earth data is publicly available for the river corridor, Rattlesnake Mountain, and Saddle Mountain - and I do not need those - however there are holes in the data that looked redacted. I would like whatever was flown.

Specify preferred form or format: electronically through an ftp site, or data CD

--Type of requestor--

Select a description of yourself and the purpose of the request to help determine your category for assessing fees: Affiliated with an educational or noncommercial scientific institution, and this request is made for scholarly or scientific purpose and not for commercial use.

--Fees and waivers--

Please select the statement that applies: I request a waiver or reduction of fees.

--Waiver factors--

The subject of the request: Disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations and activities of the US Department of Energy's

activities at the Hanford Nuclear Site and is not in the commercial interest of the requester.

The informative value of the information to be disclosed:

This

data will be used by a Hanford Natural Resource Trustee Council

member to determine physical damages done by US-DOE at the Hanford Nuclear Site, and will be shared with the entire HNRTC.

Contribution to an understanding by the general public: This data

will be used by a Hanford Natural Resource Trustee Council member

to determine physical damages done by US-DOE at the Hanford Nuclear Site, and will be shared with the entire HNRTC.

The significance of the contribution to public understanding:

This data will be used by a Hanford Natural Resource Trustee Council member to determine physical damages done by US-DOE at

the Hanford Nuclear Site, and will be shared with the entire HNRTC.

The existence and magnitude of a commercial interest: None.

The primary interest in disclosure: This data will be used by a

Hanford Natural Resource Trustee Council member to determine physical damages done by US-DOE at the Hanford Nuclear Site, and

will be shared with the entire HNRTC.

--Expedited processing--

Justification:

Please provide your specific justification for expedited processing:
