Reasonably Describe Records:

Describe the specific record(s) you seek with sufficient detail that a knowledgeable official of the activity may locate the record with a reasonable amount of effort. Such detail should include: dates, titles, file designations, and offices to be searched. Since most DOE records are not retained permanently, the more information that you provide, the better the opportunity there is to determine if the records involved still exist and where. The FOIA clearly states that records must exist at the time the request is submitted.

Description:*

Describe the information that you would like to request as specifically as possible.

I would appreciate your help in sending three documents, which are cited by the emwms.org web page as sources of DOE forecast information for future shipments (these documents were previously provided to Florida International University Applied Research Center).

They are:

RPP-RPT-61653, Rev 1. This report contains information regarding contact handled MLLW debris from TSCR operations such as process filters, delay tank, process enclosure, and other miscellaneous secondary wastes from tank side cesium removal.

CCN-305384, "Waste Estimate for the Effluent Management Facility During the DFLAW Configuration." This report contains information used as a basis for estimating organic, non-debris liquid wastes from the WTP Effluent Management Facility.

CCN-305385, "Waste Estimate for the Effluent Management Facility During the DFLAW Configuration." This report contains information used as a basis for estimating Low Level, Miscellaneous Soft Debris from the WTP Effluent Management Facility.

I would appreciate having electronic copies (no paper).

Sincerely,
