Contractor: Central Plateau Cleanup Company (CPCCo)

Contract: Central Plateau Cleanup Contract Implementation Period Task Order

Contract Number: 89303320DEM000030/89303921FEM400029

Award Period: January 25, 2021, through September 30, 2021

Basis of Evaluation: Performance Evaluation and Measurement Plan

Total Available Fee: $26,470,588

Award Fee Earned:

Subjective: $5,267,647 (of $10,588,235 available)

Objective: $ 15,511,765 (of $15,882,353 available)

Total: $ 20,779,412 (of $26,470,588 available; earned approximately 78.5% of total award fee available)

Significant Achievements:

- Sustained Integrated Disposal Facility infrastructure modifications and environmental permitting in support of the Direct Feed Low Activity Waste mission
- Completed aging structure stabilization and Plutonium Reclamation Facility demolition and debris loadout
- Treated over 1.66 billion gallons of contaminated groundwater January 25 to September 30, 2021
- Continued effective COVID-19 pandemic response and integration with other Hanford contractors
- Adaptive milestone approach in support of DOE Hanford strategic initiatives
- Maintained excellent safety performance during the last eight months of FY 2021 with a TRC of 0.19 versus the DOE-EM goal of 1.1 and DART rate of 0.19 versus the DOE-EM goal of 0.6.
- Consistently provided early delivery of required reports, submittals, and inventory information to support DOE-RL Materials Control and Accountability regulatory and reporting requirements.

Areas for Improvement Include:

- Timely, consistent and conservative reporting of ORPS and OSHA reportable events
- Conservative compliance with DOE Solid Waste Operational Complex DSA and TSR requirements
- Three of the Contractor's four primary business and administrative functions (accounting, estimating, purchasing, and property) remained in an unapproved status during the evaluation period, and business activities continue to require significant DOE oversight.
