

Public Notice on the Research, Development and Demonstration Permit
for the 2,000-gallon Test Bed Initiative

THE HANFORD SITE

This is a message from the U.S. Department of Energy

**Class 1 Modifications to Research, Development and Demonstration Permit for the
2,000-gallon Test Bed Initiative**

This notice provides information on recent modifications to the research, development and demonstration permit for the 2,000-gallon Test Bed Initiative. The changes described in this notice are categorized as Class 1 modifications. Class 1 modifications are minor and do not require a public comment period. This notice is intended to fulfill public notice requirements specified under Section I.C of the permit and WAC 173-303-830.

The modifications are described in permit change notices document packages. Each document package is assigned a tracking number. Below is information about the document packages.

- PCN-TBI-2025-03: Modifications address the closure schedule to allow additional time to complete certain closure activities and correct a reference to the responsible site contractor. The modification is available for review in the DOE Administrative Record at <https://pdw.hanford.gov/document/AR-34341>.
- PCN-TBI-2025-04: Modifications address changes necessary to extend the expiration date of the permit for an additional year. The modification is available for review in the DOE Administrative Record at <https://pdw.hanford.gov/document/AR-34360>.

If you have any questions please contact Michael Demiter, DOE, at 509-376-2600, or Edward Holbrook, Washington State Department of Ecology, at 509-940-7619.
