

## TPA Amendment/Revision History

(as of November 16, 2023)

Version History	Description
<a href="#"><u>Original version 89-10, May 1989</u></a>	The original Tri-Party Agreement (TPA) was assembled and ultimately signed by the three Parties on May 15, 1989 after lengthy negotiations, public comment and finalization (since referred to as 89-10 Rev. 0). The original was assembled by the three Parties and initial copies were printed by the State of Washington. Subsequent copies were printed by the DOE for distribution to its contractors and others.
<a href="#"><u>Calendar Year 1990 Annual Update Volume 2 of 2, March 1990</u></a>	The first annual update was conducted in 1990. The completion of the 1990 Annual Update triggered the first reprinting of the Agreement Action Plan Appendices as a separate Volume 2 in March 1990.
<a href="#"><u>First Amendment 89-10, Revision 1 Volume 1 of 2, August 1990</u></a>	Subsequently, in August 1990 the approval of the First Amendment triggered the reprinting of the Agreement and the Action Plan (minus the Action Plan Appendices) as Volume 1 labeled 89-10 Rev. 1. Although the First Amendment created the new Appendix F “Supporting Technical Plans and Procedures”, the new Appendix would not appear until the next revision since the Action Plan appendices had already been reprinted as Volume 2 in March 1990.
<a href="#"><u>Second and Third Amendments 89-10, Revision 2, Volume 1 of 2, September 1992</u></a>	The second Annual Update was conducted and approved in September 1991. The Second Amendment did not trigger a reprinting. In August 1992, the final approval of the Third Amendment triggered the reprinting of the Agreement and the Action Plan (minus its appendices) as Volume 1 labeled 89-10 Rev. 2. Appendix F “Supporting Technical Plans and Procedures” was added at this time to Volume 2.
<a href="#"><u>Calendar Year 1992 Annual Update 89-10, Revision 2 Volume 2 of 2, September 1992</u></a>	
<a href="#"><u>Fourth Amendment 89-10, Revision 3, January 1994</u></a>	In January 1994 the Fourth Amendment, representing the most extensive set of modifications ever made to the Agreement, was approved. The approval of the Fourth Amendment, due to its broad scope of modifications, triggered the reprinting of the Agreement. Of interest in this reprinting were some changes to simplify the processes and confusion involved. One of which was that the two-volume approach was abandoned in favor of a single volume printed with a single revision date. Also, in previous re-printings it was considered prudent to include the complete Amendment(s) being incorporated as well as the complete updated Agreement. However, the Fourth Amendment was comprised of 166 pages which combined with the updated Agreement, would have produced a document of almost 600 pages. This was considered somewhat environmentally and cost imprudent for limited value and the practice of printing each amendment was stopped with 89-10 Rev. 3. A new section and appendix were added at this time, Section 11.7 “Tank Waste Remediation System Critical Path Process” and Appendix G “Data Management Initiatives”.

There have been numerous other modifications of the Agreement, including its attachments, made in accordance with the HFFACO modification provisions that are too numerous to list here. They are documented and available in the **List of Approved Changes**: <https://www.hanford.gov/c.cfm/tpa/> or in the **Hanford Administrative Record**: <https://pdw.hanford.gov/>.

## TPA Amendment/Revision History

(as of November 16, 2023)

Version History	Description
<a href="#">Fifth Amendment 89-10, July 1995</a>	The Fifth Amendment was approved in July 1995 and added extensive requirements and milestones for the transition to surveillance and ultimate disposition of very large facilities on the Hanford Site (Section 8.0, Facility Decommissioning Process was added). In spite of the significant nature of the changes made by Amendment Five, the Parties determined that since the changes only modified a very specific portion of the Agreement and because only approximately one year had elapsed since the last printing, a reprinting was not necessary.
<a href="#">Fifth and Sixth Amendment 89-10, Revision 4, February 1996</a>	In February 1996 the Sixth Amendment was approved which, due to the nature of its changes, virtually modified almost every page in the Agreement and Action Plan. A new section was added at this time, Section 8.9, "Surveillance and Maintenance Surplus Facilities Management".
<p><b>NOTE: The provisions for Amendments were changed in February 1996, by the Sixth and final Amendment to the Agreement. The change authorities previously available via Amendments were transferred to the change control process found in the TPA Action Plan, Section 12.0, Changes to the Agreement.</b></p>	
<a href="#">89-10, Revision 5, December 31, 1998</a>	The updating and reprinting of the Agreement to produce the fifth version was agreed by the three Parties in 1998. This revision was updated and reprinted based upon the volume of milestone changes.
<a href="#">89-10, Revision 6, April 18, 2003</a>	The updating and reprinting of the Agreement to produce the sixth version was agreed by the three Parties in 2003. This revision was updated and reprinted due primarily to the length of time since the last reprinting. A new appendix was added at this time, Appendix H "Single Shell Tank Waste Retrieval Criteria Procedure".
<a href="#">89-10, Revision 7, July 23, 2007</a>	The updating and reprinting of the Agreement to produce the seventh version was agreed to by the three Parties in 2007. This revision was updated and reprinted due to significant updates to Appendix C, Appendix F was updated, and a new Appendix I, "Single Shell Tank System Waste Retrieval and Closure Process", was added.
<a href="#">89-10, Revision 8, July 18, 2011</a>	The updating and reprinting of the Agreement to produce the eighth version was agreed to by the three Parties in 2011. This revision was updated and reprinted as significant updates to Appendix C and D were incorporated and a new Appendix J, "Central Plateau Facilities", was added.

There have been numerous other modifications of the Agreement, including its attachments, made in accordance with the HFFACO modification provisions that are too numerous to list here. They are documented and available in the **List of Approved Changes**: <https://www.hanford.gov/c.cfm/tpa/> or in the **Hanford Administrative Record**: <https://pdw.hanford.gov/>.

## TPA Amendment/Revision History

(as of November 16, 2023)

Version History	Description
<p><a href="#">89-10, Revision 9, November 16, 2023</a></p>	<p>At the conclusion of the TPA Five-Year Review, the Parties met on December 6, 2016 and agreed to hold off on issuing Revision 9 until more substantial changes were made. The TPA was also consolidated into a single file, made available electronically, and updated/amended real-time with approved TPA change control forms and available via this link: <a href="http://www.hanford.gov/files.cfm/HFFACO.pdf">http://www.hanford.gov/files.cfm/HFFACO.pdf</a>.</p> <p>During the next TPA Five-Year Review, the Parties met on August 18, 2022 and agreed to issue TPA Revision 9 upon conclusion of the public involvement activities associated with the <a href="#">Revisions for Near-term Milestones for Central Plateau Operable Units</a>, which were approved on January 19, 2023 and these milestones were added into TPA Action Plan Appendix D.</p> <p>On March 16, 2023, the Parties suggested updates to TPA Action Plan, <a href="#">Section 8.0, "Facility Disposition Process"</a> to update building statuses and <a href="#">Appendix J, "Central Plateau Facilities and 100 Area Production Reactors"</a> to add the Fast Flux Test Facility complex structures in the 400 Area prior to issuing a new revision. These changes were approved on August 31, 2023 and incorporated into the TPA.</p> <p>This revision also included updates to the Legal Agreement Article XXXIII Notification Requirements to allow electronic document submittal and digital signatures, Action Plan Section 9.4 to eliminate the Administrative Record hard copy requirement, and Appendix B was reformatted for consistency with the Hanford RCRA Permit.</p> <p>On November 16, 2023, the Parties agreed to issue Revision 9.</p>

There have been numerous other modifications of the Agreement, including its attachments, made in accordance with the HFFACO modification provisions that are too numerous to list here. They are documented and available in the **List of Approved Changes**: <https://www.hanford.gov/c.cfm/tpa/> or in the **Hanford Administrative Record**: <https://pdw.hanford.gov/>.
