

Environmental Policy

HPMC Occupational Medical Services (HPMC OMS) delivers comprehensive occupational health services to the Hanford Site in Washington State. Services are delivered in an environmentally responsible and safe manner through our Environmental Management System (EMS). This policy is fully endorsed by the HPMC OMS President & Program Manager with the expectation that everyone who works for or on behalf of HPMC OMS take personal responsibility for adhering to the following principles:

- We protect the environment, conserve resources, and prevent pollution.
- We achieve and maintain compliance with applicable laws and regulatory requirements.
- We are committed to continually improve our environmental performance.
- We are committed to managing our operations in an environmentally responsible manner.
- We set and strive to achieve environmental goals with measurable and documented targets, which are reviewed annually for activities with significant environmental aspects.
- We are committed to providing a safe and healthy work environment for all employees.
