**The U.S. Department of Energy Issues Request for Proposal for Office of River Protection
Hanford Site Technical Support Services**

**The U.S. Department of Energy Selects Four Contractors for Multiple Award Hanford Site Technical
Support Services Contract**

Richland -- The U.S. Department of Energy (DOE) Office of River Protection awarded four indefinite delivery/indefinite quantity (ID/IQ) multiple-award contracts for the Hanford Site Technical Support Services today to Independent Strategic Management Solutions, Inc., Richland, WA; Street Legal, Oakridge, TN; JFA-RC Technical Services, LLC, Richland, WA; and Katmai Health Services, LLC, Anchorage, AK . The goal of these contracts is to establish a vehicle that allows DOE Hanford to place timely, competitive, and cost-effective task orders for technical support services in accomplishing its mission.

Independent Strategic Management Solutions, Inc., Street Legal, JFA-RC Technical Services, LLC, and Katmai Health Services, LLC will fairly compete for future ID/IQ task orders which will have fixed labor hour rates.

The mission of the DOE Environmental Management program is the safe cleanup of the environmental legacy resulting from five decades of nuclear weapons development and Government-sponsored nuclear energy research.
